2. A Joint Inspection Report of the instant proposal may be provided

The layout plan must include a legend and the proper dimensions of each component, such as Carriageway, Paved Shoulder, Earth Filling, Drain, and Protection Work, as well as an area-wise calculation. Furthermore, the forest land and non-forest land involved in the proposal must be represented in the layout plan with distinct colors and need to be duly authenticated by the concerned DFO may be provided.
4. The KML uploaded under column C of Part-I online required correction on the following points:-
 - i. The KML file of the project site uploaded doesn't have clear demarcation for forest/ non-forest areas. Hence, the KML file indicates Forest/ Non-forest areas need to be uploaded
 - ii. A fresh KML of the instant proposal needs to be provided in the polygon form of the diversion area as the proposed area for diversion is 1.9446 ha, while the calculated area is 1.24 ha
 - iii. Need to revise DGPS according to the revised proposed project site KML
5. Out of 1.9446 ha area, 0.6222 ha area proposed for muck dumping which is huge in comparison with proposed area. It is noticed that plenty of NFL available in nearby area. We may request State Govt. to select non forest land for dumping purpose
6. State Govt need to upload Land schedule, bar chart and geologist report.

7. As mentioned in the Site Inspection Report of the concerned DFO, the UA must adhere to conditions for the management of Muck/ Debris rolled down from the slope and accordingly may provide undertaking for the same duly c/s by the concerned DFO.
8. State Govt. must ensure and prepare the conservation plan of all existing water sources/natural springs and drains within and adjacent to this site are free from interruption and contamination and the undertaking for the same may be provided.
9. According to the Google Earth latest image data dated 11/2022 it seems that approx. 1.8 (ha.) is available for the new plantation/target plantation out of 1.94 (ha.). Need more vacant space i.e., 2.08 (ha.) to fulfill the target plantation
