From: "DCF West, Govt of Delhi" <dcfwest.gnctd@gov.in>

Sir,

1. A joint inspection was conducted today for assessment of compensatory afforestation site as per your application for Dwarka Expressway under Forest (Conservation) Act, 1980.
2. The site was identified using GPS coordinates provided in the application for clearance under FCA, 1980. No staff of DDA was available for the inspection despite a request for the same. The same was conveyed by your staff as well.
3. During the inspection it was found that more than 80% of the site is under encroachment, including cultivation and hutments. A major portion of the 10Ha pocket is surrounded by barbed wire fencing.
4. Under the circumstances, it is requested that an alternate site which is encroachment free may please be provided to the Forest Department so that your application can be processed.
5. Keeping in mind the urgency of the matter, it is requested that necessary action may please be taken at the earliest.
