The following shortcomings have been noticed in the proposal, which may please be completed:

1. As per tree species standing over the forest land proposed for diversion, the eco class of the forest land should be eco class-VI. But against column No.4(i), the eco class-4 of the forest land proposed for diversion has been mentioned and the bill of NPV has been calculated for eco class-VI. Necessary correction is required to be made against column No.4(i) in online part-II.
2. Working plan prescription has not been mentioned against column No.5 of online part-II.
3. CA has been proposed in terms of number of plants hence the detail of patch is not required to be given against column No.13(i) of online part-II.
