

Kurpan-II 4.8 MW SHEP in distti. Kullu/Shimla (4.2502)

Following shortcomings may be attended by State Government:

1. Short narrative of the project uploaded at para-A-1 (iii) does not give adequate information of the project.
2. At A 1 (x) Part I online, total period for which diversion is required is not filled.
3. The authority letter to file the application uploaded at A-3 (xvii) Part-I online is in favour of the organisation/company called KMN Engineering Consultant Pvt. Ltd. whereas the application is filed by Veena Kumari, Managing Director. On the other hand, all papers/certificates required to be signed by the User Agency in the hard copy have been signed by various other representatives of Himprabha Power Pvt. Limited. State Govt may remove this discrepancy.
4. Instead of giving village wise breakup, Forest Division wise breakup of the forest land proposed for diversion has been provided/uploaded online at para-B 2.3 Part-I.
5. Component wise breakup of area proposed for diversion separately for all individual project components indicated in the digital map provided with the hard copy may be uploaded at para-B 2.4 Part-I online instead of clubbing the area of more than one components together.
6. The KML file for each component is uploaded separately in Part-I for Rampur and Ani Forest Divisions which is not proper. The State Govt may upload a single KML file showing all the components of the project for both the Forest Divisions in Part-I at para-C (ii) b online.
7. The geo-referenced digital map for area proposed for diversion uploaded at Para-C (iv) of online Part-I is not found satisfactory though correct digital map is provided with hard copy of the proposal. State Govt may upload the digital map available in hard copy online at C (iv) Part-I after indicating few more geo-coordinates for the T/L specifically for each turning point.
8. State Govt. may provide/upload the village Level Committee meeting proceedings for Khakrola & Kumsu village and Sub-Divisional Level Committee meeting proceedings for Shimla District at para-K Part-I online.
9. The NOC of village Khakrola & Kumsu may be provided/uploaded online as additional Document in Part-I.
10. As directed by the Ministry, the CA may be proposed over equivalent non-forest land and not on double the area on Degraded Forest Land.

11. Approximate distance of the site proposed for diversion is mentioned as 0.00 km at para-7 of Part-II online which does not appear to be correct. May provide distance of the proposed site, towards inside, from the boundary of forest.
12. Details of wildlife present are not provided in para-8 (i) of Part-II online for Ani Forest Division.
13. The total number of tress proposed to be felled in Rampur Forest Division is 8 as per detail mentioned at pg-41 of hard copy but this is not mentioned at para-4 of online Part-II.
14. The total number of tress proposed to be felled are shown as 114 at para-4 online Part-II for Ani Forest Division but as per pg.-48 of hard copy of the proposal, this number should be 106 only.
15. Though, a document placed in hard copy of the proposal at pg-114 contains permission for Transmission through underground cable, it is not clear whether the proposed 22 KV T/L is through bare conductor or through over head single armoured cable because the RoW is taken 4 m in Rampur Forest Division and 4.86 m Ani Forest Division which is not as per existing guidelines. May clarify as to what kind of T/L is proposed and revise the RoW for the same in accordance with the guidelines.
16. Titles of documents uploaded as additional documents in Part-II online are not mentioned in the remarks column.

---Regional Office, Dehradun---

Endst No. 6979 dated Rampur, the 19/12/16
Copy is forwarded to DFO Ani for information and further
necessary action. The reply of the observation as raised by the R.O. Dehradun through
online may be furnished to this office at the earliest.

Conservator of Forests,
Rampur Forest Circle, H.P.
