संलग्न:-यथोपरि।

Nauti-Chatoli to Jakhet (extension) (0.17 ha)

The reply of this office EDS dated 17.05.2016 has been submitted by the State Govt. vide letter dated 19.07.2016 uploaded on 21.07.2016. Following shortcomings are still found in the proposal.

1. In the reply to point No.3 of EDS, the details of the technical and geographical reasons for not opting alternate alignment have not been given.
2. In the reply to point No. 4 of EDS, it is mentioned that the CD containing soft copy of the shape file (.shp file) for the forest land proposed the diversion is sent to this office through concerned Executive Engineer. But, the CD has not been received in this office so far.
3. With reference to the reply submitted against point No. 6 & 7 of EDS, this is to be stated that the scheme for planting of 940 seedlings of Banj & Moru etc. has been submitted now. The estimated amount is calculated as Rs. 21,53,882/- only which appears to be very much on higher side hence may be reviewed. In addition, the total number of projected affected trees is shown as 51 in the online Part-II and 36 trees above 10 cm dia in enumeration list submitted as additional documents. Therefore, the number of project affected trees is required to be reconciled and correct figure may be uploaded along with clarification on the discrepancy in number of trees in different documents. Accordingly, density may also be re-assessed and NPV may also be calculated afresh.

State Govt. is requested to remove the above shortcomings and submit necessary documents/information.
