

**CONSTRUCTION OF KULOLI MUNRA DEVIKHAL MOTOR ROAD (3.22 ha)**

The reply of this office EDS dated 25.11.2016 has been submitted by State Govt vide letter dated 08.12.2016. Following shortcomings still remain in the proposal:-

1. In reply to point no.2, the Nodal Officer has certified that the 6.44 ha Civil Soyam land selected for CA is suitable for CA. This certificate is stated to have been given on the basis of the certificate issued by the DFO, Almora Forest Division wherein it is mentioned that the land is degraded forest land and the findings of DSS analysis to the effect that the area is covered by forests is not correct. But nothing has been mentioned about canopy density of the area. The Nodal Officer may specifically mention the canopy density in the area identified for CA in the certificate issued by him and submit revised certificate to this office.
2. In reply to point no.3, interalia it is mentioned that Bangidhar and Baraliya villages come under Gram Panchayat Bangidhar. But it is seen from the proceedings that the name of the Gram Panchayat is Barahliya and not Bangidhar. Moreover, the name of village Barahliya only is mentioned in third para of the proceedings. Revised proceedings may be submitted mentioning names of both the villages.
3. In reply to point no.4, certified copy of the CA scheme has been submitted instead of original one. In this connection, this is to be stated that CA scheme for rupees 8,16,600 has been uploaded in online Part-II but CA scheme for rupees 8,28,787.76 or say 8.00 has been uploaded in online Part-I whose certified copy has been enclosed with the reply. State Govt may submit the original copy of the correct CA scheme and upload the same at designated place in online Part-I and online Part-II instead of two different CA schemes which create confusion.
