**विषय** Diversion of 4.9 ha of forest land in favour of HPPWD for the Construction of Tatta Pani to Khun Salhanu Dhar within the jurisdiction of Seraj at Banjar Forest Division, distt. Kullu, H.P-reg.

**सन्दर्भ:** Online Proposal No. FP/HP/ROAD/150507/2021 received on 24.07.2023

महोदय,

उपरोक्त विषय के संबंध में मुझे यह कहने का निर्देश हुआ है कि प्रस्ताव में निम्नलिखित कमी पाई गई है। अतः राज्य सरकार निम्न बिंदु पर आवश्यक सूचनाएं प्रेषित करने का कष्ट करें, ताकि अग्रिम कार्यवाही सुनिश्चित की जा सके :-

1. In Part-1, A -3 (xvii) the name mentioned in the authorization letter does not match with details of the person making the application
2. The state Govt needs to upload Administrative approval for the proposed stretch along the approved.
3. The KML uploaded under column C of Part-I online required correction/justification on the following points: -
  - i. A fresh KML of the instant proposal needs to be provided in the polygon form of the diversion area as the proposed area for diversion is **4.9 ha**, while the calculated area is **5.38 ha**
  - ii. DGPS map need to be revised because from one side i.e., 31 35 52.83 77 21 59.04 not match the uploaded KML
  - iii. The KML proposed is passing through some establishment structures (Houses). State Govt needs to clarify whether the extant proposal requires displacement of the people, if yes. The same is required to be provided.
  - iv. State Govt. needs to justify the extension of alignment beyond the benefits "**salanu**" in the **well-forested area as it does not serve the purpose.**
  - iv. The KML file of the project site uploaded doesn't have clear demarcation for forest/ non-forest areas. Hence, the KML file clearly indicates Forest/ Non-forest areas need to be uploaded
4. A Detailed Report on Alternate examined viz No of trees coming in the alignment and reason for rejection which is duly authenticated by concerned DFO need to be uploaded.
5. The state Govt. needs to provide the list of trees enumerated (Compartment no/Khasra No.) in the proposed width of the road (As per IRC norms) along with the date of enumeration.

- 1/60714/2023
6. A digital copy of the layout Plan in an appropriate scale which must include a legend and the proper dimensions of each component, such as Carriageway, Paved Shoulder, Earth Filling, Drain, and Protection Work, as well as area-wise calculations and Forest/Non-Forest area in different colors duly authenticated by the concerned DFO's needs, be uploaded
  7. The Muck dumping site is proposed in forest land. Suitable non-forest land/private land may be explored for disposal of muck as the non-forest land/private land is also involved in the extant proposal Also, a separate list of trees standing in muck dumping sites may be provided/uploaded, if muck dumping is proposed in forest land
  8. A complete Muck Management Plan along with Engineering Measures and Biological Measures for the effective management of muck generated duly authenticated by the concerned DFO needs to be uploaded.
  9. Under column 6 of Part II vulnerability of the forest area to erosion it mentioned -Not vulnerable to erosion. However, the proposed alignment is on a steep terrain which also involves the felling of a large number of ecologically important species (Cedrus deodara). As such, the **Soil Moisture Conservation Plan (SMC)**, along with its cost of implementation as per MoEF&CC dated 07.06.2022, may be provided/uploaded.
  10. State Govt. needs to upload the "**Geologist Report**" for the proposed alignment.
  11. UA shall submit an Undertaking duly authenticated by the concerned DFO that the recharge point of the seasonal streams and springs shall be taken due care from the disturbance, and sufficient measures shall be adopted to preserve the sources of these natural springs/streams and their flow
  12. The recommendation of the concerned DFO needs to be uploaded complete as per Handbook Forest (Conservation) Act, 1980 and Forest Conservation Rules, 2003 (Guidelines & Clarifications) issued on 28.03.2019.
  13. According to Google Earth's latest image data dated 06/2022, it seems that approx. 9.53 (ha.) is available for the new plantation/target plantation out of 9.8 (ha.). The vacant area was evaluated after excluding mature/medium-sized trees standing inside the proposed CA site visible through the latest Google Earth Image. As such, the State Govt. shall explore the possible suitable CA site approx. 0.27 (ha.) to fulfill the target plantation/new plantation i.e., 9.8 (ha.)

यह चाही गई सूचना पत्र जारी होने की तिथि के **90 दिनों** के भीतर इस कार्यालय में प्राप्त नहीं हुई तो प्रस्ताव को निरस्त किया जा सकता है।

भवदीय,

**Sd/-**

(राजा राम सिंह)

उप वन महानिरीक्षक (केंद्रीय)
