महोदय,

उपर्युक्त प्रस्ताव पर ध्यानपूर्वक विचार करने के उपरान्त मुझे आपको यह सूचित करने का निर्देश हुआ है कि प्रस्ताव में निम्नलिखित त्रुटियाँ पाई गयी। राज्य सरकार निम्नलिखित बिन्दुओं पर आवश्यक सूचनायें प्रेषित करने का कष्ट करें, ताकि अग्रिम कार्यवाही सुनिश्चित की जा सके:-

- 1- Diversion area required is mentioned as 0.35 ha in the proposal. However, on DSS analysis it is found out to be 0.14 ha. The User Agency may clarify the discrepancy.
- 2- State govt. is requested to submit the plantation scheme of 700 plants over 0.7 ha area for which details of area proposed for plantation be also furnished.
- 3- Shape and location of Canal is depicted in the digital map of diversion area but not shown in KML file.
- 4- The layout of the diversion head is not shown with all components and details like canal head regulator, fish ladder, under sluice, weir or barrage, details of river training work, like guide bank and marginal bunds, silt excluder, bridges etc. The complete detailsof above components are to be mentioned in the layout plan and shown in the KML file.
- 5- The canal discharge capacity has not been mentioned by the State Govt.
- 6- The location of 'Kaladhungi Nahar' is not shown in the KML file. State govt. is requested to mark the location of 'Kaladhungi Nahar' in the KML file.

- 7- In the field B-2.3 of Part-I the village wise breakup of land is not provided. All the villages are mentioned together in the same cell and cumulative area is provided. State Govt. is requested to review the same.
- 8- In the field I (i) of Part I it is mentioned that the proposal does not form the part of protected area of Eco Sensitive Zone. Also, in field 8.2 (ii) & (iii) of Part-II it is mentioned that it is not a part of wildlife corridor. Whereas, in the DSS analysis shows that the protected area is located in the Tiger Corridor or any other inviolate area. Hence, State Government is requested to clarify on this aspect with depiction of the project area on the tiger corridor map. It should be clearly mentioned that whether the Tiger Corridor is connecting two Protected Areas/Tiger Reserves.
- 9- Detailed muck disposal scheme with the details of the muck likely to be generated and the utilization of the generated muck is required to be submitted.
- 10- Density of the forest is mentioned as 0.4 in Part-II. However, it is also mentioned that no tree/seedling is likely to be affected by the proposal. The State Government is requested to look into this discrepancy.
