2. The following shortcomings have been noticed which may be attended complete in all respect:-

1. The observation No. 1 raised by the GoI has not yet been complied with. The GoI has sought submission of a justification for the revised Layout Plan, as it has been observed that the setback/back area is not being utilized for any component of the proposed building and, therefore, requires reduction. Further, the GoI has requested submission of details of trees located in the setback and circulation areas. Although an undertaking has been furnished stating that no tree will be felled in the setback/circulation area, the same mentions that no tree will be felled *during the construction phase*, which needs to be revised appropriately. The total of 25 trees has been indicated for felling under Serial No. 4(ii), Part-II; however, this figure requires revision in accordance with the actual number of trees proposed to be felled.
2. The justification for rejection/selection of alternatives uploaded in Part-I is not as per requirements. Details of all explored alternatives, including tree enumeration and reasons for rejection/acceptance, may be provided. Further, if the comments of the CWLW are under process, an undertaking for submission of the same may be uploaded.
