Date: 13/06/2022

To,
The Divisional Forest Officer (DFO),
Alibag Forest Division
Raigad District,
Maharashtra

Subject:- Submission of Forest Diversion Proposal

Diversion of 2.3180 ha. of Forest Land for Uran-Usar Propane pipeline in State of Maharashtra for laying 12" dia Liquid Propane pipeline along with OFC in Raigad district passing through Alibag Forest Division falling under your jurisdiction.

Ref.:- Online Forest Proposal No.: FP/MH/Pipeline/155612/2022 dt. 23/05/2022

Dear Sir,

GAIL (India) Limited, a Maharatna Company, under the aegis of Ministry of Petroleum & Natural Gas, Government of India, is engaged in transportation and distribution of Natural Gas to various fertilizer, Power, Steel, Petrochemical plants, Industrial Units and Domestic Consumers. Presently GAIL is having a huge pipeline network of more than 13000 Km across India. GAIL is contributing a major role in India's energy requirement & distribution through continual expansion of its pipeline network.

GAIL (India) Ltd. has planned to establish Liquid Propane Pipeline project from JNPT Uran in Uran tehsil to GAIL Plant at USAR in Alibag tehsil of Raigad district in state Maharashtra. As a part of the project, clean Liquid Propane will be made available to GAIL plant at Usar and this will directly result in reducing pollution due to use of fossil fuel, improving the environment and will also greatly benefit the people of the region. The project will generate employment for people and benefit the population of the entire region.

Overland transport of fuels by trucks is uneconomical, unsafe and is a contributor to environmental degradation in terms of pollutants released by vehicles in transit and by accidents and spillage. Pipelines are internationally recognized as the preferred alternative for transport of fuel for safety, economy and environmental friendliness.

The Pipeline is proposed to be installed using HDD/Boring/Open Cut method. We are willing to fulfill all requisite formalities including submission of application as per your prescribed format, online application, payment of statutory fee etc. to get your expeditious approval to lay the pipeline across forest land. As a part of the project, transportation through underground pipeline will be environmental friendly and will greatly benefit the people of the region by being able to generate employment during the execution phase of the project.

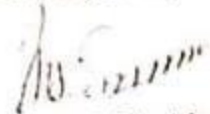

We solicit your kind cooperation and help for an appropriate early action for processing our request.
