**Subject: - Forest Land - Nagpur.**

Diversion of 5.5395 ha. forest land for expansion of factory for Enhancement of production capacity in village Nagalwadi Tal. Hingna District Nagpur Maharashtra. FP/MH/IND/40697/2019.

Desk-11/Forest Conservation /CR 465/ /2021-22. 1479 Nagpur, Dated 24/03/2022

To,  
Chief Conservator of Forests (T),  
Nagpur.

Ref: - 1. APCCF & Nodal Officer. M.S. Nagpur's letter No. Desk-17/NC/RS-1/ID-12799/1559/21-22, Dt.17/11/2021.  
2. M/s. Pix Transmission Limited Hingna's letter, Dated 11/03/2022.

The compliance of 3 points raised in reference letter No.1 done by User Agency their reference letter No.2 (Copy enclosed).

Three point of compliance report is as under:

Sr. No	Observation Sought	Compliance
1	Whether the proposal is site specific as per the guidelines published in Handbook para 1:15.	Proposal being site specific was recommended by CCF (T), Nagpur only after site inspection and communicated its site specificness to APCCF vide their letter dated 08.09.2021 the copy of which is enclosed for ready reference. Keeping in view the process involved in the Production of belts as shown in the diagrammatic flow sheet enclosed as annexure 1, augmentation of production capacity could be possible with the addition of units in series only as can be seen in the process explained in the video clip enclosed. Therefore company's plan of expansion is only possible if the site is in Contiguous with the existing units. Company has explored the possibility of availability of the non forest land contiguous to the existing unit for expansion as explained in justification note in the proposal. Establishing the project in different location means altogether new project and financially unviable as all the units will have to be reestablished along with additional equipment and machinery.
2	KML file submitted does not show the properties like gut number, village name, and area under diversion. It should be submitted in 3 CDs.	Revised KML file after incorporating all characteristics as suggested above is enclosed in 3 CDs.

3	KML file of Compensatory afforestation land should be shown with properties in 3 CDs.	Revised KML file is enclosed in 3 CDs with this letter.
