|----------------|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.             | Why has the vegetation category not chanted to dense category as observed by GoI. | The density of vegetation i.e. 0.1218 has been calculated as per the number of trees coming in the proposed project alignment and same has been mentioned online at Sr. No.4(i) of Part-II. Accordingly, NPV bill has already been uploaded against additional information of Part-II. |
| 2.             | Has the CA file been uploaded on e-green watch.                                   | For uploading the CA details the FCA proposal is required to be registered in e-Green Watch Portal for which II-Stage approval year is mandatory. Since, approval in this proposal is still pending, hence, CA details on e-green watch portal have not been uploaded.                 |

This is submitted for favour of kind information and further necessary action please.
