Road proposal 2020 -C1

page no. 136

Aheri dist Gadehiroli. (Offline Part II Point 13, Online 1)Impact of road on black buck population and The possible impact of proposed road on resident b wildlife of Pranhita wild life sanctuary especially other wildlife on black bucks and miltigation measures. If any As per approved Management Plan of Pranhita Wildlife sanctuary (2016-17to 2025-26), Annexure 7 (Faunal thereof diversity of Pranhita WLS), Annexure 8 (List of Critically endangered, endangered vulnerable, near threatened species as per IUCN Red list of Pranhita WLS) and Annexure 9 (Data of transect analysis of 2016-17 in Pranhita Wildlife sanctuary) Black buck is not reported in Pranhita Willdife Sanctuary. For existing wildlife of Pranhita WLS and surrounding regions recommendations of mitigation measures are as per point no1 of this note. 2) Miltigation measures As per above para 3 of DCF recommendations. 3.1 The underpasses having a minimum size of width 4.00 mt. and height 3.00 mt. shall be provided. 3.2 Nalla placeses underpasses should be propose at necessary place. 3.3 The User Agency may modify the dimensions and interval of the underpasses, in exceptional cases, due to technical limitations (eg. Terrain factors, engineering standards) after visiting the site and recording reasons /facts. 3.4 wherever natural cross drainage works are in existence, then there would be no need to construct new underpass subject to existing structure nearly complying above mentioned dimensions, as suggested in para 3.1 3.5 wherever natural cross drainage works are in existence but as per engineering requirement, it is required to reconstruct then that structure shall comply with the minimum dimensions as suggested in para 3.1 In addition following conditions will be recommended in the proposal
