ANNEXURE-9

Certificate for the minimum use of Forest and justification for locating the project on forest land.

The proposed pipe line is generally laid along the national highway road. Such roadside area is declared as the social forest of central government under section-2 of the forest (conservation) act 1980.

Under this proposed water supply project we would be use 860 meter linear forest land (0.086 Ha) area on behind Dahod-Jhalod Road NH No-56.

The area required for the-laying of the water pipeline is bare minimum which is a part of the social forest land.
