2. The number of tree affected by the transmission line and the exact number of trees to be felled/pruned/trans located shall be provided.

➤ It is provided by forest division office with marking kharda.

3. As the proposed are is within the ESZ of the Puma Wildlife Sanctuary, the User Agency is requested to provide feasibility for laying of underground transmission line or Aerial Bunched Cables (ABC) instead of naked transmission line. The user agency has to make provision for installation of Bird diverter or Bird deflectors if naked power transmission lines are used.

➤ Aerial Bunched Cables (ABC) not designed for 66KV line.

➤ As total length of line id 27.294KM, underground cable is not feasible in perspective of technical.

➤ The birds guard will be fixed at cross arm peak of each tower for safety of birds.

This is for your kind information and further needful action please.
