No. F.6-1276/FC/For-2020/ **1422-23**  
Government of Tripura  
Office of the Principal Chief Conservator of Forests & HoFF  
Tripura : Agartala

Dated **08/01/2021**

To  
The Deputy Director General Forests (Central),  
Ministry of Environment Forests & Climate Change  
North Eastern Regional Office  
Law-U-Sib, Lumbatngen  
Near M.T.C. Workshop  
Shillong 793021

Sub:- Proposal for Diversion of 25.00 ha of forest land for resettlement of Bru migrant of mouja-CCRF in favour of SDM Kanchnapur under DFO, North

Ref:- Letter No. F. 3-TR C 087/2020-SHI/3080-81 dated 04.01.2021

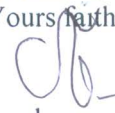

Sir,

With reference to the letter cited on the subject mentioned above kindly find enclosed herewith alternative area for compensatory afforestation along with revised CA scheme, Shape file, suitability certificate and GPS coordinates of the CA land(Annexure-A, B, C & D).

In view of the above, I would request you to kindly take further needful action in the matter.

Yours faithfully,

Enclo:- As stated

  
(Angshuman Dey)  
Chief Conservator of Forests &  
Nodal Officer, FCA

CC:-  
The District Forest Officer, North

GOVERNMENT OF TRIPURA

Site Suitability Certificate

This is to certify that Competent Authority regarding suitability of the area identified for Compensatory Afforestation under Bru resettlement is under Damcherra RF of Dharmanagar Forest Sub-Division. This project of 50 ha is situated at Damcherra RF of Damcherra Forest Range under Dharmanagar Forest Sub-Division, a total of 50000 seedlings shall be planted in the 50 Ha area through AR. (Proposal No. FP/TR/REHAB/50666/2020)

1. This area is a degraded area with about 0.1 density of trees coverage already, (as per physical verification) along with that thatch and other shrubs are also present, so AR plantation is suitable for plantation with 1000 seedlings per Ha with a total of 50000 seedlings, in 50 Ha area.
2. This area is infested with full of weeds and bushes, hence needs special attention in order to create a good patch of forest.
3. The patch is not a natural habitat of wild animal including elephants, hence needs to be developed into a dense forest from the present degraded status.
4. Availability of water is not a problem here; hence scope of surviving of transplanted seedling is more.
5. Soil is fertile and suitable for miscellaneous species of planting.
6. Availability of labour is a plus point here as there are villages nearby.
7. People all around this area including villages are in a shortage of wages hence they will have a chance to increase their earning for their livelihood.
8. There is a scope to enhance the protection activity in this area with the involvement of engagement of villages for different works in connection with the creation of plantation.
