3.	The SMCP alongwith detail cost of its implementation required to be submitted, further leopards are sighted in the proposed area hence, Wild Life Management Plan along with detail of its cost of implementations MoEF & CC, OM dated 07.06.2022 are required to be submitted.	Undertaking for Wild life Management Plan has been uploaded by DFO in additional information details against column No. 6 of Part -II and user agency has also been uploaded the undertaking for payment of cost of implementation of Soil Moisture conservation plan in additional information details

		against column No. 27 in online Part-I.
4.	The muck dumping plan is required to be submitted.	Muck dumping plan has been uploaded in additional information details against column No. 24 of Part-I in online FCA web portal by user agency.
5	The DFO has stated that proposed area is moderate to severe to soil erosion, hence, the detail of mitigation measures may be given.	In this connection DFO has intimated that as most of DA area is under submergence, construction activities are minimum. Hence soil erosion will be less.
6.	Approximate distance of the site from forest land has been mentioned 31.72 Km in online Part-II which seems incorrect, necessary correction may be done.	Necessary correction has been done by DFO in online Part-II.
7.	The total financial outlay for CA is mentioned against the Sr. No. 13 (i) of Part-II is 17042176 lac. which is incorrect, the revised amount be mentioned as per CA Scheme. Further, CA Scheme has been proposed over 63.44 ha. but area mentioned in 13(1) (i) is 31.72 ha.	Necessary correction has been done against the Sr. No. 13 (i) of Part-II and the CA area has also been corrected against column No. 13(1) (i) of Part-II in online FCA web portal by DFO.
8.	From the perusal of the KML file of CA site, it seems that proposed CA area is dense, hence the CA site may be reviewed and it must be mentioned in the CA land suitability certificate that proposed CA area is having less than 40% canopy density.	The DFO visited the proposed CA site and area is fit for plantation. Moreover in the CA area lantana bushes and krona jhari growing there due to which KML file of CA site is showing MDF in DSS. CA area is appropriate for Plantation.
