No: KFD/FCA/2021-22/ 4109-11

Dated: 12/01/2022

To,

The Conservator of Forests,
East Circle, Jammu.

Sub: Proposal for diversion of forest land for construction of link road from Nand to Sar Sabal upto fair weather status (Phase 1st) under NABARD.

Ref: Your office letter No. 1043/FCA/CFE/J Dated 24/12/2021.

Sir,

In reply to the EDS, it is submitted that the user agency vide their letter No. 11847-48/G Dated: 28/12/2021 have submitted their reply stating therein that the existing road alignment all along the proposed road from take off point to end point has been examined by their field staff during the survey and was found unsuitable due to following reason:

1. Huge grade difference.
2. The existing alignment being land slide/slip-erosion prone area.
3. The existing alignment gets frequently washed out during rainy season and construction on this alignment, therefore, shall result in huge expenditure on X-drainage and protection works.
4. Maintenance of proper grade on the existing alignment shall involve destruction of trees thereof.

The copy of the communication No. 11847-48/G Dated: 28/12/2021 has been uploaded by the User Agency under menu option "Additional Information Details" in (Form-A) Part-I on PARIVESH portal.

Regarding query related to uploading of Undertaking to pay NPV by the User Agency, it is submitted that the said Undertaking has been uploaded under menu option "Additional Information Details" in (Form-A) Part-II on PARIVESH portal by this office.

Hence submitted for your kind consideration and further necessary action.

Yours faithfully

(Vivek Modi), SFS
Divisional Forest Officer
Kathua Forest Division, Kathua

Sub: - Proposal for diversion of forest land for construction of link road from Nand to Sar Sabal upto Fair weather status (Phase 1st) under NABARD.

Ref:- Conservator of Forest Jammu letter No. 1043/FCA/CFE/J dtd. 24.12.2021

Sir,

In reference to subject cited above and EDS raised, it is submitted that the existing alignment all along the proposed road from take off point to end point was examined by field staff during survey and was found not suitable for construction owing to huge grade difference and slip/land slide prone area/alignment. Moreover it was frequently washed out during rainy season and construction on existing alignment would had resulted in huge expenditure on X-drainage and Protection works. Moreover to maintain proper grade of said road, huge destruction of trees and mountains would had taken place which didnt looked futile and thus a new alignment was fixed and proposed.

Yours faithfully,

Executive Engineer
PWD(R&B) Division
Kathua

Copy to the :-

1. Assistant Executive Engineer PWD (R&B) Sub Division No II Kathua for information.
