Previous Deliberation Details: NA

Current Deliberation on Details: The above proposal was discussed in the 7th meeting of Project Screening Committee on 01-05-2023 and User agency clarified replied all points but following observations were raised by the committee members to DFO Nahan

*Though the copy of FRA certificate along with its proceeding issued by DC proceedings has been uploaded against column No. K of Part-I but certificate of Sub Divisional Officer, FRC alongwith the proceedings of meeting with Gram Sabha and FRCs have been provided. The complete FRA certificates/ annexure alongwith its proceedings are required to be uploaded against the appropriate column of Part-I. Further, certificate of non availability of non forest land for CA has been uploaded with the FRA certificate which needs to be removed.

* The total financial outlay for CA is mentioned against the Sr. No. 13 (i) of Part-II is 17042176 lac. which is incorrect, the revised amount be mentioned as per CA scheme. Further, CA scheme has been proposed over 63.44 ha. but area mentioned in 13(1) (i) is 31.72 ha.

*From the perusal of the KML file of CA site, it seems that proposed CA area is dense, hence the CA site may be reviewed and it must be mentioned in the CA land suitability certificate that proposed CA area is having less than 40% canopy density. DFO should submit certificate for this.

Recommendation: Recommended

Recommendation Remark: Recommended in subject to above condition.
