Sir,

Kindly refer to the observations raised by the Integrated Regional Office, Shimla vide their letter under reference for the subject forest proposal. The point-wise compliance to the observations is hereby submitted in the table below.

Sl. No	Observations of IRO	Compliance
1.	It has been observed from reply that 4.8613 ha unused area of already approved alignment (Proposal number FP/HP/Road/9295/2015) has been handed over to concerned DFO. However, such proposal of surrendering unused land due to change in Layout of already approved alignment is not received in IRO, Shimla so far. User Agency (NHAI) instead of submitting proposal for change in Layout and area revision in already approved case, has submitted a new proposal for diversion of land due to change in alignment. Therefore, State Government may provide comments in this regard. Further, revision in the area/Layout Plan etc. in already approved alignment in the proposal number FP/HP/Road/9295/2015 in which 40.3 ha forest land diversion has already been diverted is required to be carried out.	DFO Shimla is requested to share the information of surrendering unused forest land of 4.8613 Ha. due to change in alignment of already approved alignment with IRO Shimla as early as possible. The matter of already approved 40.3 ha. of forest land of the earlier alignment and additional requirement of forest in the present case was discussed with DFO Shimla prior to initiation of new Forest Proposal. A new proposal for the both the packages were uploaded online, accordingly in year 2022. Further revision in the area in the already approved alignment in the proposal of 40.3 Ha. forest land already diverted is not required since it is already approved, however in case its

2.	Revised KML file has been uploaded; however, polygon of already approved alignment and non-forest part has been removed from KML file. Therefore, complete KML file with proposed alignment (Proposal number FP/HP/ROAD/154923/2022) and already approved alignment (Proposal number FP/HP/Road/9295/2015) whether in forest land or in non-forest land is required to be uploaded.	In the revised KML, only tunnel components were added and the forest polygons were revised to match the diversion area. However, KML file of already approved alignment as uploaded in Proposal number FP/HP/Road/9295/2015 is also uploaded with the proposed alignment as desired.
3.	In DSS analysis of revised KML file of diversion area, area calculated is 19.08 ha. However, proposed area is 19.1788 ha. Therefore, same may be reviewed and revised KML file with correct area figures may be uploaded again.	The difference in the proposed DA and calculated area is only 0.0988 ha and this mismatch usually occurs during digitization of the revenue records. Usually an error of $\pm 5\%$ occurs during digitization which is acceptable whereas here it is around -0.5%.
4.	Since NPV bill has been revised from Open category to Dense Forest category, therefore, vegetation density of proposed diversion area falling under Shimla Forest Division is also required to be revised in Part-II.	Pertains to DFO office.
5.	Chainage wise, Khasra number wise, component wise, forest and non-forest area wise information of proposed project including length, width and dimensions of all components in tabulated form was sought. However, khasra number wise detail of Road and Muck Dumping component is not provided.	Chainage wise, Khasra number wise details including length & width of forest area of road & muck dumping component is provided in Enclosure-1
6.	Clarification with supporting documents regarding variation in proposed width of RoW from 29.48 m to 142.0 meter was sought. In reply, excerpt from manual of Specifications and Standards for Four Lining of Highways is provided in which width of RoW for Highways is mentioned as 60m. It has also been mentioned that Authority would acquire the additional land required as per the Schedule B. Schedule B is not provided. Therefore, proper justification wide range of PROW with supporting documents is required to be submitted.	In continuation to earlier reply submitted, please find enclosed herewith schedule-B clause 2.4 indicating Chainage wise PROW details attached as Enclosure-2
7.	In reply to query no. 7, enumeration list of trees standing in Private land has been provided. However as desired, Khasra number wise enumeration list of proposed	Pertains to DFO office.

3. In view of above, it is requested to take necessary action so that stage-I approval for diversion of forest land measuring 19.1788 hectare could be obtained at the earliest & encumbrance free land could be provided to the Contractor for starting the four laning work in the public interest.
