विषय:- वन मंडल सिंगरौली के परिक्षेत्र बैढ़न के ग्राम मुहैर व पड़री के कक्ष क्र. RF-276, & PF-277, 278, 279 के रकबा 622.783 हे. वनभूमि के स्थान पर पुनरीक्षित रकबा 139.86 हे. वनभूमि में ब्लॉक-बी ओपन कास्ट कोयला उत्खनन हेतु NCL का व्यपवर्तन का आनंलाईन प्रस्ताव क्र. FP/MP/MIN/44294/2020

संदर्भ:-- भारत सरकार, पर्यावरण वन एवं जलवायु परिवर्तन मंत्रालय, नई दिल्ली का पत्र क्र.

8-08/2021-FC, दिनांक 26 / 06 / 2023

विषयांकित परियोजना के संबंध में आपके द्वारा संदर्भित पत्र क्र. / 8-08/2021-FC दिनांक 26/06/2023 से 06 बिन्दुओं पर जानकारी चाही गई है। चाहीं गई जानकारी वन मंडल अधिकारी, सिंगरौली द्वारा पत्र क्रमांक / 3497 दिनांक 11 / 07 / 2023 से तथा नॉर्दन कोलफील्डस लि. के पत्र क्र./457 दिनांक 30/06/2023 से प्राप्त हुई है। प्राप्त जानकारी बिन्दुवार जानकारी निम्नानुसार प्रस्तुत है:-

	3	
क्र.	चाही गई जानकारी	प्रस्तुत जानकारी
i	The State Government has now submitted the KML file of the mining lease boundary covering an area of 1756.77 ha. In the said kml file it has been found that the user agency has excluded or not applied for the diversion of 24.186 ha forest land. This 24.186 ha forest patch is adjacent to RF-276 (11 ha) which has been proposed for excavation work. The justification for keeping the 24 ha area within the mining lease out of diversion proposal and the proposed measures for the protection of the same shall be submitted.	इस बिन्दु के सम्बन्ध में आवेदक संस्था द्वारा लेख किया गया है कि पूर्व में प्रस्तुत 631.39 हे. वनभूमि प्रत्यावर्तन के प्रस्ताव को भारत सरकार द्वारा निरस्त कर दिया गया था। इसके बाद संस्था द्वारा 139.86 हे. वनभूमि की संशोधित आवश्यकता को ध्यान में रखते हुए संशोधित खनन योजना तैयार की गई थी, जिसके लिए वर्तमान प्रस्ताव प्रस्तुत किया गया है।  प्रस्ताव में वनक्षेत्र की आवश्यकता को न्यूनतम रखने के उद्देश्य से 24.186 हेक्टेयर को छोड़कर शेष वनक्षेत्र को प्रस्तावित किया गया है।  यदि भविष्य में परियोजना के विस्तार (द्वितीय चरण उत्खनन के लिए) आवश्यक हुआ तो इस 24. 186 हे. वनभूमि को प्रत्यावर्तन के लिए प्रस्ताव पृथक से प्रस्तुत किया जाएगा।
ii	The total forest & non-forest area under Safety zone found through KML file is 15.99 ha whereas the safety zone area mentioned in the Mining plan is 18.08 ha. This needs clarification and submission of correct KML file of Safety zone as per approved mining plan.	्रातेतक संस्था ने एस्तावित सेएटी जीन के

iii	As per DSS analysis it has been found that out of 15.99 ha area under safety zone, total 1.464 ha area of safety zone is falling under the compartment No PF277, PF- 278 & PF-279 which have been proposed for dumping and RF-276 which has been proposed for excavation	आवेदक संस्था द्वारा स्पष्ट किया गया है कि इस 1.464 हेक्टेयर क्षेत्र का उपयोग डम्पिंग या उत्खनन कार्य के लिये नहीं किया जायेगा।
	purpose. Therefore, the State Govt. shall clarify whether 1.464 ha area of safety zone coming under proposed diversion will be utilized by the user agency for dumping and excavation work or otherwise.	
iv	The mining plan mentions an area of 18.08 ha for safety zone whereas the same has not been mentioned in the component wise break-up in online Part-I. The same needs clarification.	30.06.2023 से उपलब्ध कराया है जो संलग्न है।
V	As per DSS analysis it has been found that the two newly proposed CA patches namely Range-Jiyavan, Compt No.PF 770, PF 771 (25 ha) and Range- Jiyavan, Compt No.PF 752, PF 753 (25 ha) cannot be accepted for carrying out plantation work because the same CA sites have already been proposed by the State Govt. vide their letter dated 29.03.2023 in the In-Principle/ Stage-I approved Bina Kakar Amalgamation OC Project. Therefore, the State government shall revisit the CA areas and propose Compensatory Afforestation areas as per extant rules and guidelines.	
vi	The DGPS map and SoI map of CA sites proposed in the instant proposal have not been uploaded by the State Govt. in online Part-II. The same needs to be uploaded online.	अपलोड कर दिया गया है।

अतः प्राप्त जानकारी संलग्न प्रेषित कर प्रकरण में स्वीकृति प्रदान करने का अनुरोध है।

To, The Addl. PCCF/Nodal Officer Govt. of MP Satpura Bhawan, Bhopal

Subject: Diversion of 139.86 ha forest land in compartment No. RF-276 & PF-277, 278, 279 of Village- Muher and Padri, Range Waidhan of Singrouli Forest Division for Block-B Expansion Opencast Coal Mining in favor of M/s Northern Coalfield Limited in Singrauli District of Madhya Pradesh State (Online No. FP/MP/MIN/44294/2020) - regarding.

Ref: 1. Letter no.8-08/2021-FC 1/47141/2023 dated 26.06.2023

Dear Sir.

With reference to your above referred letter, reply of Para no. (i) to (vi) of the observations of MoEF&CC, New Delhi is submitted as under:

SI	Observations of MoEF&CC	Reply
No.	The State Government has now submitted the KML file of the mining lease boundary covering an area of 1756.77 ha. In the said kml file it has been found that the user agency has excluded or not applied for the diversion of 24.186 ha forest land. This 24.186 ha forest patch is adjacent to RF-276 (11 ha) which has been proposed for excavation work. The justification for keeping the 24 ha area within the mining lease out of diversion proposal and the proposed measures for the protection of the same shall be submitted.	The proposal for diversion of 631.39 Ha Forest land submitted earlier was rejected by MoEF&CC. Subsequently revised mining plan was prepared considering the revised requirement of Forest land of 139.86 Ha for which the present proposal has been submitted. The requirement of forest land for excavation has been revised to bare minimum by excluding 24.186 Ha which was considered earlier for excavation.  This 24.186 Ha forest land will be proposed for diversion if required for expansion of the Project in future (for Phase II excavation).
	the same shan be sabriated.	For safety and protection of above 24.186 Ha forest land patch from mining activity, safety zone of 2.09 Ha area (out of 18.08 Ha) has been considered in adjacent forest land patch of 11.00 Ha (RF-276) which is part of 139.86 Ha forest land. (KML file enclosed).

		the state of the s
	The total forest & non-forest area under Safety zone found through KML file is 15,99 ha whereas the safety zone area mentioned in the Mining plan is 18,08 ha. This needs clarification and submission of correct KML file of Safety zone as per approved mining plan.	In the revised mining plan 18.08 Ha area (Nonforest land – 14.526 ha and Forest land – 3.554 ha) has been considered as Safety zone.  The break-up of 18.08 Ha safety zone is as follows:  1. 1.464 Ha area of safety zone is present in 94 Ha forest land patch proposed for diversion for dumping purpose.  2. 14.526 Ha area of safety zone is present along the inner side of leasehold boundary in nonforest land excluding the area mentioned in above Point 1.  3. 2.09 Ha area of safety zone is present in 11 Ha (RF-276) forest land patch proposed for diversion for excavation purpose. This area has been kept for the safety & protection of 24.186 Ha forest land patch which has not been considered for diversion.  (KML file enclosed).
111.	As per DSS analysis it has been found that out of 15.99 ha area under safety zone, total 1.464 ha area of safety zone is falling under the compartment No e. Therefore, the State Govt. shall clarify whether 1.464 ha area of safety zone coming under proposed diversion will be utilized by the user agency for dumping and excavation work or otherwise.	It is to clarify that 1.464 Ha area of safety zone (falling under the compartment No PF-277, PF-278 & PF-279 proposed for dumping and RF-276 proposed for excavation) will not be utilized by the project for dumping and excavation work or otherwise.
IV.	The mining plan mentions an area of 18.08 ha for safety zone whereas the same has not been mentioned in the component wise break-up in online Part-I. The same needs clarification.	The component wise break-up of land requirement has been updated in Part-I of the application in the online portal.  The break-up of 18.08 Ha safety zone is as follows:  1. 1.464 Ha area of safety zone is present in 94 Ha forest land patch proposed for diversion for dumping purpose.  2. 14.526 Ha area of safety zone is present along the inner side of leasehold boundary in nonforest land excluding the area mentioned in above Point 1.  3. 2.09 Ha area of safety zone is present in 11 Ha (RF-276) forest land patch proposed for diversion for excavation purpose. This area has been kept for the safety & protection of 24.186 Ha forest land patch which has not been considered for diversion.
V.	As per DSS analysis it has been found that the two newly proposed CA patches namely Range-Jiyavan, Compt No.PF 770, PF 771 (25 ha) and Range-Jiyavan, Compt No.PF 752, PF 753 (25 ha) cannot be accepted for carrying out plantation work because the same CA	To be complied by State Forest Department, MP
