DETAILS OF ALTERNATIVES EXAMINED AND REASON FOR REJECTION

The Mullaperiyar Police Station is having its jurisdiction area over the watershed area of the dam and the dam premises with a total strength of 124 police personnel. Presently the Police Station is functioning in a portion of the building of Forest Department inside the Periyar Tiger Reserve which is too insufficient for the functioning of the Station.

Several alternatives have been examined, however, since the dam and its premises come under Periyar Tiger Reserve, construction of police station is not practical inside the Tiger Reserve. The present land proposed is just outside the Periyar Tiger Reserve and the District Collector idukki has already certified that no revenue land is available near the proposed land. District Police has also searched the availability of private lands to be acquired but no suitable lands could be identified. The proposed land itself is far from the present location of the police station. It has been proposed with the idea of taking the Police Station outside the Periyar Tiger Reserve. Hence, it is submitted that the proposed site may be sanctioned.
