#### **Violation REPORT**

# A Note regarding the circumstances under which the work has undertaken in violation of Forest (Conservation) Act, 1980.

The Maharashtra State Electricity Transmission Company Limited (MSETCL), Government of Maharashtra Undertaking, has decided to take up construction of LILO132 KV Yavatmal-Yavatmal MIDC line for 132 KV Darwha S/Stn Transmission for augmentation of the electricity grid network towards increasing demand of power in the Yavatmal & Darwha region.

The total length of the project stretch selected for construction of the line is 166.5 mtr. Part of this line is passing through reserved forest area of Gut No. 31, Compt. No. 96 of Village Pandhurna in Yavatmal Forest Division. P.O.R. for the same proposal is issued with no. 128/16 dated 26/11/2020 The proposed line requires diversion of 0.45 Ha in Yavatmal Forest Division. Therefore the construction of this line requires forest clearance from Ministry of Environment Forest and Climate change (GOI).

The diversion of reserved forest area has been limited to the minimum that satisfies the standards of Central Board of Irrigation and Power. As the project line is passing through the middle of the reserved forest area, avoiding reserved forest area is not possible. Alternatives has been examined and found that no better option is available.

The construction of this line is commenced in year 2017 and no construction activities have been conducted in the forest patch. During stringing work of transmission lines, 166.5mtr length of forest patch is violated with the said overhead transmission line. There are no tower foundations within this land. Details of violations are as follows.

Sr.No.	Name of person responsible for violation	Designation & Address of person responsible for violation	Action taken against the person responsible for violation
1	Shreem engineering Ltd.	Contractor	Terminated
2	B.S. Amale	Assistant Engineer	Intimation were given for further work
3	G.L.Mane	Line Foreman	Intimation were given for further work

The work in this area is stopped and proposal for approval under Forest (Conservation) Act is submitted by the Project Authority.

The project authority has given undertaking to bear the cost of Compensatory Afforestation as directed by Forest Department.

As the proposal is for construction of transmission line and there is no suitable alternative for the same and project authority has submitted the proposal for obtaining approval from Government of India. Gut No. 31, Compt. No. 96 of Village Pandhurna is reserved Forest

as per this office record, the proposal is recommended subject to agency shall pay penalty for violation equal to Net Present Value (NPV) of forest land per hector for each year of violation from date of actual diversion reported in violation report of MSCTCL, with maximum upto 5 (five) times the NPV plus 12% simple interest till the deposit is made.

Today on 26/11/2020 after being called by the Field Assistant (Pathrad) and Forest Guard Ladkhed Beat, while patrolling in C. No. 96 Pandhurana, when he suddenly looked up, it was seen that the electric wires had stringed. Forest staff first visited the area in front of us where the electric wire had gone and inspected the tower of the said electric wire. When the area where the said electric wire passed was measured, it was found that the east-west length was 166 m, the north-south width was 26 m and it was vertical at a height of 3 to 4 m from the ground. The total area under the said electric wire was found to be 0.45 R and when the trees in this area were inspected and counted, it was found as follows. (GPS Reading  $20^{0}$  17' 31"N 77<sup>0</sup> 56' 49" E)
