

ANNAPOORNA STONE CRUSHER

SY No. 01/D, Uchangidurga Village, Harapanahalli Tq., Davangere Dist., Karanataka State

Reg No From,

Date 18-12-22

Sri T.Basappa,
Partner of Annapoorna Stone Crusher,
Sy.No.01/D, Uchangidurga Village,
Harapanahalli Taluk,
Vijayanagara (Hospete)District.

To,
The Deputy Conservator of Forests,
Davangere Division, Davangere.

Sir,

Sub : Diversion of 10.0956 hectare of forest land in Sy.No 1/A and 1/D of
Uchangidurga village, Arasikere Hobli, Harapanahalli Taluk, Davangere district
For establishing M-Sand quarry and its approach road in favour of
M/s Annapoorna Stone Crusher (A partnership firm of Sri T.Basappa s/o
T.Sidappa, Smt M.C.Poornima w/o Sri.T.Basappa, and Sri B Nikhil s/o
Sri T.Basappa. #1120, 3rd cross, tharalabalu extension, Davangere. Sy.No. 1/D
Uchangidurga Village, Harapanahalli Taluk, Davangere District-reg.
Ref : Letter No : 4-KRC/2020-21-BAN/235 dated : 17-02-2021 and 03-11-2021 of the
Government Of India, Ministry of Environment and Forest, Bangalore.

With the reference to the above cited subject and reference, I am herewith
furnishing the item wise clarification is as under.

Sl No	Conditions	Clarification
1)	Justification for opening new mining/ quarry lease may be examined as per the paragraph 7.8 of the comprehensive guidelines. A brief profile of the lessee / company giving	The Scarcity of river sand / natural sand and the sky high price for the available little quantity made the general public as well as the government bodies unaffordable to take up any developmental work / project in the construction field. With this stand point Karnataka government has taken an initiative introduce the alternative for natural sand. As a result after all technical evidences approved the M-Sand. M-Sand is the manufacture sand produced by using the granite rock available in the earth's crust with the same composition of high silica and more

details of their capacity and average annual production and projected further requirement, etc shall also be furnished.

effectively without any silt in it.

Further the GOK had brought an amendment to the Karnataka minor mineral concession rules (KMMCR) 1994 in the year 2016. As a result the production of M-Sand is supported by the GOK and also supported to grant quarry leases as a captive consumption to those who have the M-Sand manufacturing units/crushers.

Coming to this project the M-Sand crusher / unit is located in the jurisdiction of Harapanahalli taluk of newly declared vijayanagara district of Karnataka. In the district of Vijayanagara and adjacent fast growing davangere district the requirement of M-Sand is very high due to the more development activities.

Our M-Sand unit is at the border of both Vijayanagara district and davangere district and very much feasible to cater the demand of the M-Sand.

Location Details and Crusher Details.

Village & Sy.No.	M-Sand Establishment date	Crusher unit in tonnage (TPH)	Production quantum	M-Sand production necessary stone in quantum (MT)	For doubling of the M-Sand production stone available in appropriate quantum (MT)
Uchangidurga and 1/D	25-11-2015	200 TPH	480000 TPA	684000 MT	1368000 MT

There is a quarry operating as a captive consumption in the revenue land of Sy.No. 1/C of uchangidurga village, Harapanahalli taluk, Vijayanagara District, Karnataka. These quarries are very small in area and which has been reaching to Ultimate Pit Limit (UPL) since the deposit is below the surface. Further expansion of the quarry is not possible. There is no such area available except the proposed area within radius of 10kms free from monuments, wildlife sanctuaries, protected forests. As we have seen the most of the granite bearing area is located in the forest land in Vijayanagara district. [The proposed area is adjacent to the revenue land. The proposed area is not deep inside the forest land.]

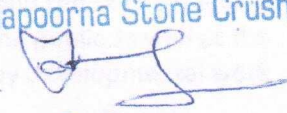

Here the disturbances to the wild animals or other part of the forest land is very minimum. As I am struggling to survive my M-Sand unit as well as to fulfill the demand of M-Sand for developmental work of vijayanagara & Davangere district, It becomes inevitable to apply for quarry lease in the proposed location [Sy.No. 1/A & 1/D] in the forest land. I assume that there will not be any disturbances to the rest of the forest land due to quarry operation.

The proposed area free from any public building, settlements, temples, protected monuments, Schools, Railway, National or State highways, Power line or any water bodies within the distance of 200mtrs.

		Existing mining lease of Sri T.Basappa S/o T.Sidappa, tharalabalu Badavane, Davangere. <table border="1" data-bbox="494 212 1308 392"> <thead> <tr> <th>Taluk</th><th>Village & Sy.No.</th><th>Area in (A-C)</th></tr> </thead> <tbody> <tr> <td>Harapanahalli</td><td>Uchangidurga Sy.No.1/C</td><td>4-00</td></tr> <tr> <td>Harapanahalli</td><td>Uchangidurga Sy.No.1/C</td><td>1-50</td></tr> </tbody> </table> The proposed lease area is 175 mtrs from the unit. The said M-Sand unit license is declared under Form-C from district authority. The Report of the Senior Geologist, Department of Mines and Geology, Davangere is enclosed.	Taluk	Village & Sy.No.	Area in (A-C)	Harapanahalli	Uchangidurga Sy.No.1/C	4-00	Harapanahalli	Uchangidurga Sy.No.1/C	1-50
Taluk	Village & Sy.No.	Area in (A-C)									
Harapanahalli	Uchangidurga Sy.No.1/C	4-00									
Harapanahalli	Uchangidurga Sy.No.1/C	1-50									
2)	Whether the Historical temple in the DCF's inspection report (i.e., Goddess uchangemma Devi) is notified Archeological structure by the Archeological Survey Of India (ASI). If so, NOC from ASI shall be required.	NOC issued from the ASI is enclosed herewith.									
3)	Quarrying is proposed in three different locations with approach roads resulting in fragmentation of forest. Justification for the same be provided.	The quarrying is proposed in 3 different locations with approach roads, because the stone available at these locations are standard graded stone which is found from the physical verification and also which is fit for the productions of M-Sand and for building stone. As per the above said report.									
4	Cost benefit analysis as per FC guidelines.	Cost benefit analysis is enclosed herewith.									

Hence I request your kind self to recommend for the grant of quarry lease in the proposed area.
