विषय : प्रस्ताव संख्या FP/RJ/WATER/153642/2022- Diversion of 9.5611 ha of Protected Forest land for KALITEER LIFT SCHEME] DHOLPUR (RAJASTHAN) to provide drinking water to 483 Villages of 4 Tehsils of Dholpur & District in favour of Executive Engineer Water Resource Division-II Dholpur in Rajasthan-Kaliteer Lift Scheme

संदर्भ : सहायक वन महानिरीक्षक, पर्यावरण, वन एवं जलवायु परिवर्तन मंत्रालय भारत सरकार, क्षेत्रीय कार्यालय गांधीनगर के पत्र सं. 8B/RAJ007/2024-JPR I/145249/2025 दिनांक 25.11.2025 एवं मुख्य वन संरक्षक एवं क्षेत्र निदेशक रणथंबोर टाइगर रिज़र्व सवाईमाधोपुर के पत्रांक 3418 दिनांक 15.12.2025

महोदय,

उपरोक्त विषयान्तर्गत संदर्भित प्रस्ताव के संबंध में निवेदन है कि सहायक वन महानिरीक्षक, पर्यावरण, वन एवं जलवायु परिवर्तन मंत्रालय भारत सरकार, क्षेत्रीय कार्यालय गांधीनगर के संदर्भित पत्र द्वारा इंगित बिंदुओं की तथ्यात्मक रिपोर्ट निम्नानुसार प्रस्तुत हैं:-

Sr. No.	EDS Raised by MoEF&CC	Reply
1.	The site details and erosion vulnerability statement in the proposal need to be corrected to reflect ground reality and that suitable soil conservation and mitigation measures must be incorporated.	As per the Proposal submitted by the User Agency, water shall be conveyed from the Chambal River bank to the proposed Pump House-1 by gravity through an open channel which is protected by grouting and stone gabions. The proposed Pump House-1 shall lift the water through underground pipelines and convey it to the proposed Pump House-2. The proposed Pump House-2 shall further lift the water through an underground pipeline and discharge the lifted water into the natural streams of Parbati and Ramsagar Dam. It is mentioned in the online parivesh portal proposal part-II Point number 6 soil is not vulnerable for erosion. The undersigned inspected the project site along with the representatives of the User Agency on 16.01.2025. During the site inspection, it was observed that a ravine exists between the Chambal River bank and the alignment of the proposed Pump House-1 and Pump House-2, which may be vulnerable to soil erosion. However, the remaining project area is predominantly rocky in nature, and no significant soil erosion is anticipated in these stretches. To address the erosion-prone ravine stretch, the User Agency has submitted an undertaking that, after laying of the pipeline, the soil shall be properly backfilled and compacted, and indigenous grasses shall be planted on the levelled soil to bind the soil, prevent erosion, and provide adequate stability to the trench. Although the natural streams are not prone to soil

		erosion, small loose stone check dams shall be constructed as a precautionary measure to arrest surface runoff and control soil erosion in the natural streams of Parbati and Ramsagar Dam, at the project cost. In this regard, separate undertakings duly signed by the User Agency are enclosed (Annexure-1) in compliance with the EDS for kind consideration.
2.	The inconsistencies in the CA cost, tree enumeration, and segment area data, must be reconciled and corrected in the proposal.	Initially, the forest diversion proposal was submitted for an area of 14.8859 ha, and accordingly, an equivalent extent of non-forest land was allotted and mutated in favour of the Forest Department. Subsequently, due to changes in the project alignment, the forest land proposed for diversion has been reduced from 14.8859 ha to 9.5611 ha. Accordingly, this office had prepared the Compensatory Afforestation (CA) Scheme for an area of 14.8859 ha, based on the initially proposed diversion area. The segment-wise revised area calculation sheet, reflecting the updated forest diversion area, has already been uploaded in the proposal (Anexure-2). The tree count information is as per the updated forest diversion area of 9.5611 ha, which was also uploaded in the proposal (Anexure-3).
3.	Recommendation of the PSC to be submitted. This issues with the approval of the Competent Authority.	The Project Screening Committee (PSC) recommendation for the referenced proposal has been received and attaches as Annexure-4.

अतः उक्तानुसार रिपोर्ट श्रीमान को अग्रिम एवं आवश्यक कार्यवाही हेतु प्रेषित है।

Dated : 10.11.2025

MINUTES OF THE FIFTY-SIXTH (60th) MEETING OF THE PROJECT SCREENING COMMITTEE**(PSC) HELD ON 10th November, 2025 (Monday) AT ARANYA BHAWAN, JAIPUR**

The 60th meeting of the Project Screening Committee (PSC) of Rajasthan FCA, Jaipur was held on 10.11.2025 (Monday) at 11:00 AM in hybrid mode, under the provisions of Rules 8 & 9 of Forest (Conservation) Rules, 2022 & Van (Sanrakshan Evam Samvardhan) Rules, 2023. The following members/representatives of the State Govt. of Rajasthan were present online as well as offline during the meeting:

1.	Shri K. C. A. Arun Prasad , Nodal Officer & APCCF (FCA), Raj., Jaipur	Chairperson
2.	Smt. Khyati Mathur , CCF, Ajmer	Member
3.	Shri Anoop K R , CCF RTR Sawaimadhopur	Member
4.	Shri Shreenidhi B T , District Collector (DM), Dholpur	Member
5.	Shri Neelabh Saxena , District Collector (DM), Karauli	Member
6.	Shri Mohit Gupta , DCF, Nagaur (additional charge)	Member
7.	Shri Sumit Bansal , DCF, Karauli	Member
8.	Shri Ashish Vyas , DCF NCS Dholpur	Member
9.	Shri Jagdeep Singh Dahiya , DCF (FCA), Rajasthan, Jaipur	Member-Secretary

The following agenda items / Proposals submitted on Parivesh 2.0 were examined in the 60th PSC meeting held on 10.11.2025

Agenda item	60.1 PSC-II		
Proposal No.	FP/RJ/SRY/540509/2025		
Project Name	Seeking prior approval for Exploration & Survey of 581.8162 hect. in forest land for Composite license Dedrauli Iron Ore Block in favor of M/s Pacific Industries Limited in District Karauli.		
Project Category	Exploration & Survey		
Proponent name	Pacific Industries Limited		
Forest Division	Karauli		
Land required	Forest	Non-forest	Total
	581.8162 ha Unclassed	172.3638 ha	754.38 ha
Earlier PSC	52 nd (4.8.25), 54 th (8.9.25)		

Previous Deliberation Details: NIL

The proposal was examined in 52nd and 54th PSC meeting held on 4.8.25 & 8.9.25 respectively. After due deliberation in 54th meeting PSC recommended it for acceptance. Accordingly, the proposal was forwarded to the Deputy Conservator of Forests (DCF), Karauli, for completion of Part-II and for taking further necessary action.

Current deliberation details

DCF Karauli has returned the proposal after raising following observations:

1. The boundaries of the applied forest area are marked as per the department's KML file; however, these boundaries do not match with ground references/points and those marked

- on the respective SoI toposheet. Therefore, it is desirable that the proposal be submitted according to the forest boundaries marked on the SoI toposheet and the khasra map
2. The User Agency (UA) is required to submit the SoI toposheet, DGPS map, and superimposed khasra maps.
 3. The UA has submitted a map showing existing roads/paths; however, as per Google imagery, no such roads/paths appear to exist in the proposed forest area. Hence, to carry out the survey activities, the UA should provide complete details of existing roads/paths along with details of all machinery and equipment to be used for survey and exploration works.
 4. The submitted document titled “*Trench Method and Volume Excavation*” is not certified by the competent authority of the proponent.
 5. Similarly, the document titled “*Methodology of Trenching*” is also not certified.
 6. As per the report submitted by the Range Forest Officer, Hindaun, vide his office letter No. 805 dated 17.10.2025, trees will be felled at the proposed trench locations. Therefore, all trench locations must be clearly marked in the field in the presence of forest officials.

PSC Decision

During the meeting, the DCF apprised the PSC that tree counting has been completed. In this regard, the User Agency (UA) was advised to avoid tree felling and to submit an undertaking accordingly. Further, the PSC directed the UA to upload the certified documents as pointed out by the DCF.

After due deliberation and discussion with the DCF, Karauli, and the representative of the proponent, it was decided to return the proposal to the User Agency (UA) so that the documents/information desired by the DCF, Karauli, can be provided by the UA. Once these observations are addressed and complied with, the matter will be examined in the next PSC meeting.

Current deliberation details

DCF Karauli has returned the proposal after raising following observations:

1. In the submitted KML file the applied forest area and non-forest area are not shown with different colours. Therefore, it is desirable that the proposal be submitted according to the forest boundaries marked on the SoI toposheet and the khasra map.
2. The User Agency (UA) is required to submit the SoI toposheet, DGPS map, and superimposed khasra maps.
3. The UA has not submitted a map showing existing roads/paths. Hence, to carry out the survey activities, the UA should provide complete details of existing roads/paths to carry all machinery and equipment to be used for survey and exploration works.
4. The document describing *Trench Method and Volume Excavation* is not submitted.
5. Similarly, the document describing *Methodology of Trenching* is not submitted certified.
6. The Cadastral Details According to Toposheet Number 54 F/2 and GSI Portal are not certified by the competent authority of the proponent.
7. As per the report submitted by the Range Forest Officer, Hindaun, vide his office letter No. 806 dated 17.10.2025, trees will be felled at the proposed trench locations. Therefore, all trench locations must be clearly marked in the field in the presence of forest officials.

PSC Decision

During the meeting, the DCF apprised the PSC that tree counting has been completed. In this regard, the User Agency (UA) was advised to avoid tree felling and to submit an undertaking accordingly. Further, the PSC directed the UA to upload the certified documents as pointed out by the DCF.

After due deliberation and discussion with the DCF, Karauli, and the representative of the proponent, it was decided to return the proposal to the User Agency (UA) so that the documents/information desired by the DCF, Karauli, can be provided by the UA. Once these observations are addressed and complied with, the matter will be examined in the next PSC meeting.

proposal was forwarded to the Deputy Conservator of Forests (DCF), Karauli, for completion of Part-II and for taking further necessary action.

Current deliberation details

DCF Karauli has returned the proposal after raising following observations:

1. The boundaries of the applied forest area are marked as per the department's KML file; however, these boundaries do not match with ground points and those marked on the respective SoI toposheet. Therefore, it is desirable that the proposal be submitted according to the forest boundaries marked on the SoI toposheet and the khasra map.
2. The User Agency (UA) is required to submit the SoI toposheet, DGPS map, and superimposed khasra maps.
3. The UA has not submitted a map showing existing roads/paths. Also as per Google imagery, no such roads/paths appear to exist in the proposed forest area. Hence, to carry out the survey activities, the UA should provide complete details of existing roads/paths to carry all machinery and equipment to be used for survey and exploration works.
4. The submitted document titled "*Trench Method and Volume Excavation*" is not provided.
5. Similarly, the document titled "*Methodology of Trenching*" is also not provided.
6. The Cadastral Plan is not certified by the competent authority of the proponent.
7. As per the report submitted by the Range Forest Officer, Hindaun, vide his office letter No. 808 dated 17.10.2025, trees will be felled at the proposed trench locations. Therefore, all trench locations must be clearly marked in the field in the presence of forest officials.

PSC Decision

During the meeting, the DCF apprised the PSC that tree counting has been completed. In this regard, the User Agency (UA) was advised to avoid tree felling and to submit an undertaking accordingly. Further, the PSC directed the UA to upload the certified documents as pointed out by the DCF.

After due deliberation and discussion with the DCF, Karauli, and the representative of the proponent, it was decided to return the proposal to the User Agency (UA) so that the documents/information desired by the DCF, Karauli, can be provided by the UA. Once these observations are addressed and complied with, the matter will be examined in the next PSC meeting.

Land required	Forest	Non-forest	Total
	9.5611 ha PF	8.6219 ha	18.1830 ha
Earlier PSC	NIL		

Previous Deliberation Details

Since this proposal was submitted on PARIVESH 1.0, and there was no provision for its examination by the PSC at that time, it was not processed accordingly.

Current Deliberation Details

This proposal was submitted by the Water Resources Department on PARIVESH 1.0 on 22.03.2022. Accordingly, it was examined at various levels, and after addressing all observations and completing Parts I, II, III, and IV, it was forwarded to the RO on 04.11.2024. The RO, Jaipur, examined the proposal and raised an EDS on 26.11.2024 related to approval from the NBWL and the CA scheme. The same was replied to by the State Government on 09.09.2025. During the process of issuing in-principle approval, the proposal was discussed in the REC meeting held on 07.06.2025, and as directed, the proposal is now being examined by the PSC.

PSC Decision

Since the proposal pertains to providing drinking water to 483 villages of four tehsils of Dholpur (Basedi, Sarmathura, Badi, and Saipau), including Dholpur town, and will be executed as a public utility project, after due deliberation, the Project Screening Committee (PSC) decided to recommend the proposal in the public interest and to forward its recommendation to the IRO for approval and necessary action.

The MoM is approved by competent authority.
