Reference item as in Form A	Remarks	Compliance
B-2.4 Component wise breakup	- Only Approach Road (L-1448 Mts, W-6.7 Mts) and 'For Mining Activities' are mentioned as components instead of specifying exact components for road like shoulders, drains and shoulders. 1. Please ensure that all Components of the Project are mentioned completely and correctly (without abbreviations) specified and corresponding requirement of forest /non-forest land is provided in this Item.	As per directions Mentioned components Wise Shoulders, Drains, and area is marked as Forest & Non forest Land.

C(ii)(a) KML file of proposed land	• Approach road KML does not show the component wise breakup which is also required to show. • As per google imagery the proposed road is already broken up. • The width of the road is not uniform at the corners. 1. Please ensure that component wise breakup KML is provided for approach road.	As per instructions made correction and the width of the road is maintained Uniformly in all corners. (Map is attached for your Reference as Annexure-1) Component wise breakup of KML is uploaded.
C(iv) Scanned copy of the Geo-referenced map of the forest land proposed to be diverted prepared by using GPS or Total Station	• Mosaic map is uploaded showing 3 part villages. • Individual maps are required. 1. Please upload the following two types of Geo- referenced maps (both merged into a single PDF file) showing the forest area proposed for diversion in the given village limits on the following two scales. a. Map-1: On ordinary village map scale 1:7920) b. Map-II: At much larger scale (with greater zoom) for a detailed view of the project area. 2. Pls ensure that map: a. Is Sharp/Original scanned Map (not a photocopy) b. Has a proper Map Index & Map Title. c. Is duly ink-signed by User Agency. d. Shows all survey numbers and boundaries in and around the project area clearly. e. Shows the entire alignment (forest and non-forest) of the project in the village limits in two different colours. f. Provide the GPS readings (in Datum: WGS-84: in Degree, Decimals) of all corners/turning points of the forest area proposed for diversion (as well as at every 20 meter interval along the cuves within forest limits) • GPS Points (serial number wise) prominently should be marked on corresponding corners points of forest area on the Map.	Uploaded two types of Geo-referenced maps (both merged into a single PDF file) showing the forest area proposed for diversion in the given village limits on two scales. a. Map-1: On ordinary village map scale 1:7920) b. Map-II: At much larger scale (1:4000) (Map are enclosed for your kind reference as Annexure-2)

L. Details of land identified for Compensatory Afforestation	• CA land (22.2 ha) is proposed in two land parcels of 9.2 ha and 13 ha in Betasur village. • GPS readings are not in correct WGS 84 format and not correctly matching with uploaded CA KML. Hence the GPS readings enlisted in a convertible PDF in "Decimals Degree" with datum WGS-84 format is required for technical analysis. • The shape of proposed CA land KML is different from the shape of proposed CA marked on the maps. • Survey of India Topo sheet number is not mentioned on Topo map. 1. Please ensure that the above issues are verified. 2. Please note that the CA land needs to be in proximity (sharing at least one boundary) to an existing forest land in accordance with FC guidelines and also suitable for taking up CA planting. a. It is advised to consult and obtain the CA land Suitability Certificate (in prescribed manner) issued by the jurisdictional Deputy Conservator of Forests so as to avoid delays in processing at a later stage	Corrected and uploaded as per the requirement all the corrections are made and Suitability certificate is also submitted and is attached with this letter for your kind reference as Annexure-4
