However, comments of Chief Wildlife Warden on the possible impact of the mining on the fauna and mitigating measures, if any required to be taken have not been submitted along with the proposal.	The User Agency has prepared the Wildlife Management Plan [ANNEXURE-1] for Swami malai Iron Ore mine. The same has been submitted by the Deputy Conservator of Forests, Ballari Division vide letter No.M1/MNG/MSPL/2559/2018-19 dated 27-08-2020 to the Chief Conservator of Forests, Ballari Circle who in turn has submitted the same vide letter No.M1/MNG/TRF/ML No.2559/CR-11/2018-19 dated 04-09-2020 to the Principal Chief Conservator of Forests (Wildlife) & Chief Wildlife Warden, Karnataka for approval. The Deputy Conservator of Forests, Ballari Division, Ballari to specify the entire amount for mitigation plan period so that entire amount may be provided in the beginning and there is no problem of future funding for mitigation.
- 2. In the Budget estimation, under the habitat improvement, components of exotic invasive weeds management and seed ball sowing with local species shall be added and allotment of Rs. 50.00 lakh shall be made, instead of Rs. 25.00 lakh.
- 3. To monitor the movements and behavior of wild animals, number of camera traps shall be made 20 pairs (with allotment of Rs. 9.00 lakh) instead of 5 pairs (with present allotment Rs. 2.20 lakh).
- 4. Broken up area need to be fenced suitably as per the suggestions of jurisdictional Deputy Conservator of Forests to avoid accidents/injuries to wild animals due to mining.

The approved Plan will be submitted in due course. However, the above comments of the Chief Wildlife Warden on the Wildlife Management Plan prepared by the User Agency in consultation with the field officers are submitted for taking further decision on the Stage-I approval.

(ii) As per the lease sketch, prepared on the basis of joint verification of Forest, Revenue and Mining Department of the State, the area of the lease is 26.699 while the Mining Plan has been approved for 26.71 ha. Therefore, discrepancy in the lease area (forest area)
