The project is connected between newly constructed Bahragoda Substation from existing Dhalbhumgarh Substation. It will transfer power and will fed to small grade substations will eventually will fed to village to fulfill their power supply demand. The area covering transmission line encompasses usual movement of elephants. The proposal may be accepted with the condition to take mitigation measures to contain the effect of wild life and birds.
--	------------	----	-------------	---	--	---

					There is seasonal movement of Elephants and other wild animals in the proposed area. The proposal may be accepted with the condition to take enough care about the ground clearance in such a manner that in case of Elephants crossing under the proposed line, it may not harm even in the raised trunk position. As the proposal is in larger interest of the Nation, it is recommended for the prior approval.
