We the undersigned panchas

- 1) Shri. Devidas Vinayak Darekar Residing Sanaswadi Age 33 years. Occupation Agriculture
- 2) Shri. Deepak Ananda Hargude Residing Sanswadi Age 30 Years Occupation Agriculture

We were called by Round Forest Officer Shikrapur and Forest Guard Karandi and were told that the pipeline laid by Essar India Private Limited company in Mauje Dingrajwadi forest area without permission. This has been removed from the forest area as per the complaint of the local villagers of Mauje Sanswadi and they requested to conduct Panchnama regarding it. As per that request we are conducting Punchnama as follows:

Unauthorised pipeline laid by Essar India Pvt Ltd in Mauje Dingrajwadi forest area of 8inch diameter PVC pipe 2 pieces 4 and 8" iron pipe 20 feet 1 and 30 feet 1 total 2 pipes rusted and damaged with the help of J. C. B. machine while removing the said pipe, PVC pipe pieces 4 and Iron pipe 2 are damaged and unusable. On canal bunding laid pipes and adjoining the canal on the south side of the canal 2 pipes are seen lying in the ditch of the canal. From where the PVC pipe was removed, 4 pieces are seen and while removing the pieces of pipe, water is seen accumulating. In the forest area of 30 x 1.50 mtr. square 450 feet length excavation is approximately 1/2guntas. As above, we hereby confirm the Panchnama by varifyingthe contents, starting at 13:00 PM and ending at 15:00 PM.

Five of us were called by Forest Divisional Officers Shikrapur and Karandi and told that there is encroachment by Essar India Private Limited Company in Mauje Sanswadi forest. As there is such a complaint from the local village, the concerned staff of the forest department said that the Sadar pipe should be given a panchnama. It is as follows:

Essar India Pvt Ltd in Mauje Sanswadi area has been in existence since 1990 as per our enquiry. The pipe of the said company and the government forest at MaujeDingrajwadi can be seen on the western side. In it, big trees like Subabhul, Babhul, Prosopis, Limb, Kasid, Sisu, Kanchan etc. are visible. Runners and Prosopis bushes are visible in some places. Currently, due to the rainy days, the water level has increased to approximately 2 feet. The gate of the company can be seen on the south side wall of the company and there are 5 to 6 holes on the lower side of the west side wall of the company with a diameter of 3 inches and the water in it does not look like chemicals. If the said pipe is removed, there is a possibility of huge damage to the trees.
