the same has also been uploaded at Sr. No. 8 against the additional information detail of Part-I.

4. The Soil Moisture Conservation Plan has been uploaded at Sr. No. 8 against the additional information detail of Part-II.
5. In this regard user agency has reported that the village Dharjol is a cluster of various inhabitation situated at 0.500, 1.00, 1.500 Km far from each other. It is clear that an another link road is existing from Geo reference 31 43;27.87/76 44'39.06 which cover only on inhabitation and it leads from on carrier of village Dharjol to down ward of south direction up in the proposed road of geo-reference 31 43'2.23/76 49'.97 but this road does not attract the FCA provision because this path / road used to be very ancient, which was used for grazing cattle/mule path and for drinking water. This road is not a part of proposed road in any way.

Yours faithfully,

Nodal Officer-cum-APCCF (FCA),  
O/o Pr.CCF, H.P, Shimla-1.
