Justifications with reference to Site Specific nature of the proposal for forest diversion was communicated vide letter under reference 1, 2 and 3 and also reiterated vide reference no. 4. The Site Specific nature of proposal is reproduced below:

The proposal has been examined & scrutinized in detail and site visit has been conducted. After scrutiny of the matter and site inspection by RFO/DCF and CCF level, the proposal found justified on the following grounds:

1. The forest land proposed for project are Rocky, without water, having no Trees and not suitable for any kind of forestation.
2. Land is in various small patches in isolation and difficult to manage.
3. The forest land proposed especially Part of Gut No. 18 is already encroached by one colony of slums. The satellite imageries for the last three decades indicating progressing encroachments over the land. Considering day by day increasing encroachment, it will be very difficult to hold vacant possession of the land in future.
4. The forest land proposed is shown as industrial zone under Nagpur Regional Development Plan and suitable for Industries only.
5. While forwarding the recommendation, it was also considered that, Industry has no other alternate land in surrounding area for such expansion. Industry has tried at its level best to find other suitable land.
6. Recommendation was also considered keeping in mind the new employment opportunities that would be generated in light of the industry expansion. Such an industry in the area would help in the development of the surrounding local area / villages. Considering the past record of the Industry, it is understood that it is contributing in the Indian economy by selling goods in the domestic market as well as in the **International market**.

After detail scrutiny and looking feasibility of the Project with above clarification the proposal being sent for kind perusal.
