Sr. No.	Points	Remark
i	As per DSS analysis, the correct KML File of Village 'Kolane' which is proposed to be re-located from Chandoli National Park has not been submitted/uploaded and same needs submission.	Correct KML File attached herewith in CD.
ii	Instead of submitting a consolidated proposal for the entire relocation of village Kolane the State Govt. is processing the forest diversion proposal and submitting it in a piecemeal manner. The State Government has not submitted the clarification on the rationale behind submitting separate proposals instead of a unified one.	Village Kolane is being rehabilitated in two different districts i.e. Two different divisions (Satara & Sangli) of the State Forest Department. Total project affected persons of Village Kolane are 79 out of these 48 projects affected persons are being rehabilitated in Satara District and 24 projects affected persons Sangli being rehabilitated in Sangli District and 7 project affected persons have opted for Option 1. The Current diversion proposal is for rehabilitation in Satara District. Thus, the proposal is being submitted separately by Dy. Conservator of Forest, Satara for relocation in the area under the jurisdiction of Satara Forest Division.
