

**Title of the Project: Construction of Road from Bindoo to Zamalgam by R&B under CRF**

File No: FP/JK/ROAD/46843/2020

Date of Proposal: 11-01-2021

**Sub: EDS raised over the road from Bindoo to Zamalgam Verinag in Anantnag Forest Division.**

**Ref: Worthy PCCF &HoFF letter No:PCCF/FCA/3274/2346-47 dated: 05-10-2021.**

In compliance to the above reference, whereunder undersigned were asked to examine the comments furnished by the user agency in view of the fact that the village is already connected by two parallel roads as seen in the KML file of the proposed road. The factual reports examined are as follows:

1. It is justified that the road was actually proposed by the user agency in one segment but after joint inspection it was found that it involves a stretch passing through the very dense forest resulting in cutting down of hundreds of trees. And also there is no habitation in between that stretch. The stretch was later dropped, resulting in proposal of road in two segments.
2. It is justified that the first segment joins the habitation of Bindoo Mohalla Tantraypora to the main National Highway and there is no alternate connectivity to the said habitation.
3. Second section was proposed as commented by the User agency that this road segment is not only the **shortest route** to Zamalgam Verinag but the **safest and convenient one particularly during the rainy and winter seasons** is totally based on facts as examined by the undersigned.
