With reference to the queries raised in the reference to the 2nd cited, I submit that the reply as follows:-

1.	In section 13(i) of part - II , The mentioned Compensatory Details of Compensatory Afforestation Scheme, total financial outlay mentioned is Rs.16.54136 Lakhs and double the land area of Compensatory Afforestation selected in Salikulam West Reserved Forest of 0.84 Ha.(Proposal for diversion of 0.42 Ha of Forest Land). But on verification of the	The mentioned Compensatory Afforestation area had been rectified from 0.83 Ha to 0.84 Ha and the same had been marked in the Georeferenced map and Topo sheet of Survey of India map is enclosed herewith.
----	--	--

	scanned copy of the Compensatory Afforestation area marked in the Geo Reference map, the area arrives to 0.83 Ha. This may be resurveyed and rectified.
2.	It is mentioned in Compensatory Afforestation details that the total amount of Compensatory Afforestation to be collected from the User Agency is Rs.16.54136 Lakhs. By verifying the breakup details; it is found that this amount is total sum including the Net Present Value, Nursery and Plantation of 0.84 Ha of Compensatory Afforestation area along with the maintenance cost of plantation of 1 st year to 10 th year. Since the amount to be collected for Net Present value should be dealt separately and should not be included in Compensatory Afforestation. The Compensatory afforestation amount may alone be furnished in this section.
3.	The Net present value amount calculated is for 0.84 Ha instead of 0.42 Ha area proposed to be diverted.
	The said rectifications are made in the annexure I and attached herewith. Rectified as Net present value is $0.42 \times 4.38 = 1,8396$ / (as per FC guidelines Chapter III sub division 3.4)

This is for favour of your kind information
