Memo:

Kindly refer to your online EDS raised on dated 19.11.2024 on the subject cited above.

The Point-wise reply to the EDS is furnished as under:-

Sr. No.	EDS	EDS reply
1	As desired by the PCCF (HoFF) HP, no. of trees are very high. kindly check it and resubmitted please.	<p>In this regard, it is submitted that the proposed project area involves 70 trees and 13 saplings of different species and classes as per enumeration detail submitted in Part- II. As per field visit by DFO Kullu, it has been found that the trees involved in the proposal are very less and are sparsely scattered and does not form any compact wooded block which can be ascertained from Google Earth and DSS analysis of KML file. The density of vegetation of the proposed project area is 0.0367 i.e. less than 5%.</p> <p>Further, the proposed area is unavoidable and barest minimum and non-availability certificate has already been uploaded at Sr. No. 9 in additional information of Part- I. In addition, the user agency has submitted an undertaking uploaded at Sr. No. 36 in part- I wherein, it has been undertaken that all possible efforts will be made to save the valuable trees during construction work of the project.</p>

This is submitted for favour of your kind information and further necessary action at your end please.
