No. Desk-17/Nodal/Dhule/ID-12658/2415 /2022-23

Nagpur – 440 001, Date 16/12/2022

To,

The Deputy Director General (Central),
Ministry of Environment, Forests, and Climate Change,
Regional Office, Ground Floor, East Wing,
New Secretariat Building,
Civil Lines, Nagpur-440001.

Sub:- Diversion of 23.10 ha. Of reserved Forest land in favour of Executive Engineer, Maharashtra State Electricity Distribution Co, Ltd, Dharangaon Division, Jalgaon for erection of 33 KV Karanje Transmission Line for 33/11 KV Karanje Substation from Malapur to Karanje village, Tal Chopda, Dist Jalgaon in the State of Maharashtra-regarding.

Ref:- 1. Regional Office (MoEF&CC), Nagpur Letter No. F.No.FC-II/MH-141/2021- NGP/10150, Dt. 08/08/2022 || P.No. 343
2. Conservator of Forests(T) Dhule Letter No.Desk-5/Nodal/CR./203/22-22, Dt.12/12/2022 || P.No. 357

Ministry of Environment, Forest and climate Change, Government of India, Regional office, Nagpur, vide letter under reference no. 1 has sought compliance on 3 point. Accordingly, the Conservator of Forests (T), Dhule vide letter under reference no.2 has submitted the compliance of shortcoming in this regards to this office. The compliance report as desired by GOI vide letter Dated 08/08/2022 is submitted as under:-

Sr. No.	Points	Compliance
i.	Correct KML file of area proposed for diversion is not submitted by the User Agency. Correct KML file highlighting Forest patches needs to be submitted.	The revised KML File highlighting of proposed area for diversion is enclosed herewith Annexure-I
ii.	Details of alternative alignments explored using ecological parameters, justification for selecting the proposed alternative and reasons for discarding other alternatives is not submitted. The same needs to be submitted along with soft copy of KML file.	The user agency has submitted details of alternative alignments explored using ecological parameters, justification for selecting the proposed alternative and reasons for discarding other alternatives and Maps of showing three alternative alignments. The copies of the same are enclosed herewith along with KML file Annexure-II & III

KML File

II- Page 350, 352 to 354
III- 349

iii.	Facts related to forest area proposed for diversion vis-a-vis project components has not been presented by the User Agency. The same has to be presented by the User Agency in next meeting.	The user agency has submitted Facts related to forest area proposed for diversion vis-a-vis project components. The copy of same is enclosed herewith as Annexure-IV P-354
------	--	---

In view of the above facts, it is requested that Government of India may kindly approve the above proposal under section-2 (ii) of the forest (Conservation) Act, 1980, as early as possible.

Encl:- As above.

(Naresh Zurmure)

MAHARASHTRA STATE ELECTRICITY DISTRIBUTION CO.LTD.DHARANGAON DIVISION

Out: L.NO.EE/DRN/TECH/3565

DATE:09/12/2022

To,

Deputy Conservator of forest ,
Yaval Forest Division,Jalgaon.

Subject:- S/o rectification of queries for diversion of 23.10 Ha. Of Reserved forest land in favor of Maharashtra state electricity Distribution Co.Ltd Dharangaon Division,Jalgaon for erection of 33 kv karjane transmission line for 33/11 kv karjane substation from Malapur to karjane village Tal.Chopda,dist.Jalgaon in the state of Maharashtra -reg.

Reference:-1)Letter from DFO Yaval Division,Jalgaon जा. क्र.ब./कक्ष. ५/जमीन/२२१६/२०२२.२३ जळगाव -४२५००१,दिनांक ०१/१२/२०२२.

2) L.No.EE/DRN/TECH/1910 dated 14 July 2021.

R/Sir,

In connection with above reference subject No. 1,Integrated Regional office Nagpur raised 3 queries related to proposal of construction of 33 kv karjane transmission line virwade to karjane via bormali.

- 1) Query No.1 that is KML file of area proposed for diversion has already been submitted as per above reference no.2.Undersigned is once again submitting correct KML file of area proposed for diversion with this letter.
- 2) As per reference No.2 details of alternative alignments explored using ecological parameters, justification for selecting the proposed alternative and reason for discarding other alternatives has already been submitted. Undersigned is once again submitting correct KML file of area proposed for diversion with this letter.
- 3) As per reference No.2,facts related to forest area proposed for diversion vis-à-vis project component has been submitted by undersigned. Undersigned is once again submitting facts related to forest area proposed for diversion vis-à-vis project component and same will be presented in the next meeting.

In view of the above, undersigned is again submitting said queries as mentioned with the reference no.1,to the deputy conservator of forest,Yaval Division,jalgaon for further consideration of the proposal for approval under Forest(Conservation)Act,1980.

09/12

Yours Faithfully,

R S Pawar

Executive Engineer ,Dharangaon division
MSEDCL

JUSTIFICATION FOR SELECTING THE PROPOSED ALTERNATIVE AND REASON FOR DISCARDING OTHER ALTERNATIVE

- 1) **Route No.1 having compartment no :-208,248,395,222,223,220 , length:- 6 km , area :- 10.3 Ha**
 - Route No. 1 passes through above compartments have borazanti ,vajapur village of Maharashtra state and some area of Madhya Pradesh state. Due to deep forest area and having number of trees, the path is cancelled considering ample harm to forest area due to lengthiest and forest reserved area. Approximately 300 trees will get harm ,since this route passes through two states that is Maharashtra and Madhya Pradesh. Following are the ecological parameters related to above said area
 - **Forest Density:-** 0.4 Below
 - **Wild Animal:-**Common Mongoose, Porcupine, Jackal, Black Buck, Indian Hare, Indian wild boar etc
 - **Bird:-** Common Green Pigeon, Maharashtra Woodpecker, Pariah Kite, Brown Wood Owl, common peafowl etc
 - **Tree Felling:-** 282 nos
 - Hence route No.1 containing above said compartments ,is not feasible and so rejected.

- 2) **Route No. 2 having Compartment No :-208,207,200,203,205,212,218,219, length:-6.8 km , area:-10.2 Ha**
 - Route No.2 passes through above compartments involve river and hilly area where steep slope for multiple number of locations which may cause uneasiness for transportation of line erecting materials. Approximately 325 trees will get harm while commissioning of 33 kv transmission line. Also maintenance in future will be hectic due to mountainous and hilly slope area. Moreover taking out maintenance and breakdown activity will be of more time consuming for MSEDCL employees so chances of interruption will be more and providing unreliable supply to consumers will get difficult. Following are the ecological parameters related to above said area
 - **Forest Density:-** 0.4 Below
 - **Wild Animal:-**Wild cat, Fivestriped Palm squirrel, Hyena, Jackal, Indian Hare, Indian wild boar etc
 - **Bird:-** Pariah Kite, Brown Wood Owl, common peafowl etc
 - **Tree Felling:-** 260 nos
 - Hence Route 2 containing above said compartments, is not feasible and so rejected.

3) Route No. 3 having¹ compartment No :-186 ,200,204,205,206,207,208,212,214 length :-15.4 Km , area :-23.10 Ha

- Route No.2 passes through above compartments comprises of Malapur village, Bormali ,and Karjane village. Above said compartments passes through less hilly and steep slope area moreover transportation through these compartment is easy possible due to less bare land, comprising of less number of species of trees and mountainous area, so there will not be any necessity to cut more number of trees.Following are the ecological parameters related to above said area
- **Forest Density:-** 0.3
- **Wild Animal:-**Hyena,Jackal,Black Buck,Indian Hare,Indian wild boar etc
- **Bird:-** Pariah Kite,Brown Wood Owl,common peafowl etc
- **Tree Felling:-** 363 nos
- Hence Route No.3 Containing above said compartments ,is feasible and so preferred over above 2 routes
