Principal Secretary (Forests),
Revenue & Forest Department,
Mantralaya Mumbai -32.

Sub:- Diversion of 12.0225 ha forest land in favour of EHV Project Division, Kalyan for construction and laying of 220 KV LILO M/C Transmission line on 220 KV Padghe-Wada and Kolshet-Wada Transmission line for 400 KV Kudus SubStation passing through Villages- Eaksal, Chichavali, Kunde and Dighashi, Taluka- Bhiwandi, District- Thane in the State of Maharashtra- regarding.

Ref:- 1) The Government of India, MoEF&CC, IRO Nagpur letter F.No.FC-II/MH-201/2022-NGP-10732, dated 08/12/2022
2) The Chief Conservator of Forests (T), Thane vide letter No. Desk-10/FCA/CR-19/22-23/OW-231, dated 20/07/2023.

The Government of India, Ministry of Environment, Forests and Climate Change, Regional Office, Nagpur vide letter under reference No. 1 has raised back query on 08 points. Accordingly, the Chief Conservator of Forests (T), Thane vide letter under reference No. 2 has submitted the compliance report to this office. The same may be submitted as under:-

S.No.	Query	Compliance
i	The detailed report on violation of FCA, 1980 including nature and extent of violation, name of official persons responsible for violation and action taken thereof needs to be submitted.	The detailed report on violation of FCA, 1980 including nature and extent of violation, name of official persons responsible for violation and action taken are enclosed herewith as (Annexure No.I)
ii	Since Eco-Sensitive Zone of Tansa Wildlife Sanctuary has not been notified, ESZ is deemed to be 10 Km., accordingly, the State Government shall obtain and submit comments from the PCCF (Wildlife), Maharashtra on any adverse impact of the proposal on the resident wildlife and mitigation measure thereof	The Principal Chief Conservator of Forests (Wildlife), Maharashtra State vide its office note dated 08/08/2023 has given remark is shown as under:- (Annexure No.VI) <i>As per Supreme Court of India various order in WP 202/1995, it is made clear that the activity as classified in GOI guidelines on ESZ dated 09th Feb, 2011 should be followed in case ESZ is not notified. So instant case is of erecting electrical cable which is regulated activity and hence wildlife clearance is required from SBWL & SBWL</i> In this regard, the User Agency has submitted an undertaking. The copy of the same is enclosed herewith as (Annexure No.VII)
iii	Alternative alignments has been examined only based of minimum forest area required, no other ecological parameters have been used. Accordingly, detail of alternatives	The User Agency has submitted the details of alternative alignment examine and feasibility of project and soft copies of KML is enclosed herewith as (Annexure No.III)

2 Set Received

25
10/10/23

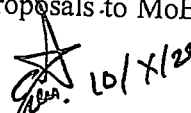

824
9219012023

	examined before finalization of proposed one along with the details of corresponding attributes of alternatives examined viz. forest area involved, no of trees involved, tree density, distance from the PAs etc. vis-a-vis feasibility of project and soft copies of kml needs to be submitted by the State Government.	
iv	State Government has mentioned in their covering letter that "Concerned DCF shall ensure that proposed land and CA land is a forest land as per relevant documents". The exact legal status of the area identified for CA and proposed for diversion need to be certified by the State Government.	The Deputy Conservator of Forests, Thane Forest Division has certified that the legal status of area proposed for diversion is Reserved Forest & Protected Forest and DCF Nanded mention in there Suitability Certificate of Compensatory Afforestation Lands legal status is Reserved Forest. Relevant Document. The copies of Form No.1, Notification, 7/12 extract are enclosed herewith as (Annexure No.III)
v	Examination of Google imagery of proposed area revealed that by shifting alignment further north down to the existing highway around the hillock, a considerable forest area can be avoided. Further alignment is passing close to the Tansa and Dumdyia River, however, same can be proposed diagonally through the agriculture field, which eventually will also reduce the length of the alignment. The State Government may revisit the alignment and detail report on possibility of shifting of the alignment as above need to be submitted.	<p>The Deputy Conservator of Forests, Thane Forest Division has revised the proposed diversion area along with the project authority on dt.27/05/2023. The photographs is enclosed herewith as (Annexure No.IV-A) The following points are pointed out.</p> <ol style="list-style-type: none"> 1.The northern side of the existing road there are the school building & residential structures of Madoshi Village. 2. Proposed transmission line of Adani & 400 KV. DC. Boisar-Padghe Line is passing through norther side of Madoshi village & Tansa river. 3. The Project authority has also completed the construction work of the towers in private land & two towers in the forest land. 4. From the norther area of Tansa River existing 400 KV. Babhaleshwar-Kudus transmission line is passing along with Tansa river. 5. Proposed 400 kv. Kolshet Wada transmission line is enter in the premises of Kudus substation through southern side and close to Tansa river. <p>Hence considering all above parameters it is not feasible to shift the route other than proposed in the proposal.</p> <p>The detail drawing of above things for reference is enclosed herewith as (Annexure No.IV/B)</p>
vi.	It has been found through the satellite imaginary that most of the forest area and Reserve Forest in particular is under encroachment and activities like agriculture,	Area proposed for diversion of Eksal Village is already diverted for Rehabilitation of affected villages in Koyna Wildlife Sanctuary in year 2023. Some area has been transferred

	pathways and construction of permanent structure are visible. The detail note on the current land use of Reserve Forest and action if any taken for removal of encroachment need to be submitted.	to the Reveue Department for land distribution to landless people. So, that activity like agriculture, pathway and construction of permanent structure are visible.
vii.	Forest patch wise area calculation statement, indicating the length and breadth, forest density has not been submitted. The same needs to be submitted along with detail of forest patches which are being bifurcated from the transmission line.	Revised Area Statement showing Density is enclosed herewith as (Annexure No.V)
viii.	Detail of area available for plantation of dwarf species, preferably medicinal in the clearance available under the conductor and scheme of plantation has not been provided in the proposal, same need to be submitted.	Proposed area for diversion is already diverted for Rehabilitation of 5 villages from Koyna Wildlife Sanctuary (for Agricultural & Residential Plots) and some Forest area has been transferred to the Revenue Department for land distribution to landless people. Hence, the area could not be available under the conductor for plantation of dwarf species, preferably medicinal.

In view of the above facts, it is requested to process the proposals to MoEF&CC for approval under section – 2 of the Forest (Conservation) Act, 1980.

	<p>River, however, same can be proposed diagonally through the agriculture field, which eventually will also reduce the length of the alignment. The State Government may revisit the alignment and detail report on possibility of shifting of the alignment as above need to be submitted.</p>	<p>The following points are pointed out.</p> <ol style="list-style-type: none"> 1. The northern side of the existing road there are the school building & residential structures of Madoshi village. 2. Proposed transmission line of Adani & 400 kv. DC. Boisar-Padghe Line is passing through northern side of Madoshi village & Tansa river. 3. The project authority has also completed the construction work of the towers in private land & two towers in the forest land. 4. From the northern area of Tansa River existing 400 KV. Babhaleshwar - Kudus transmission line is passing along with Tansa river. 5. Proposed 400 kv. Kolshet Wada transmission line is enter in the premises of Kudus substation through southern side and close to Tansa river. <p>Hence considering all above parameters it is not feasible to shift the route other than proposed in the proposal.</p> <p>The detail drawing of above things for reference is attached herewith. (Annexure -IV/B)</p>
6.	<p>It has been found through the satellite imaginary that most of the forest area and Reserve Forest in particular is under encroachment and activities like agriculture, pathways and construction of permanent structure are visible. The details note on the current land use of Reserve forest and action if any taken for removal of encroachment need to be submitted.</p>	<p>Area proposed for diversion in Eksal Village is already diverted for Rehabilitation of affected villages in Koyna Wildlife Sanctuary in year 2013. Some area has been transferred to the Revenue Dept. for land distribution to landless people. So, that activity like agriculture, pathways and construction of permanent structure are visible.</p>
7.	<p>Forest patch wise area calculation statement, indicating the length and breadth, forest density has not been</p>	<p>Revised Area Statement showing Density attached herewith. (Annexure - V)</p>

S.No.	Quires	Compliance
	submitted. The same needs to be submitted along with detail of forest patches which are being bifurcated from the transmission line.	
8.	Details of area available for plantation of dwarf species, preferably medicinal in clearance available under the conductor and scheme of plantation has not been provided in the proposal, same need to be submitted.	Proposed area for diversion is already diverted for Rehabilitation of 5 villages from Koyna Wildlife Sanctuary (For Agricultural & Residential Plots) and some Forest area has been transferred to the Revenue Dept. for land distribution to landless people. Hence, The area could not be available under the conductor for plantation of dwarf species, preferably medicinal.

As above 1 to 8 point Compliance Report submitted along with 3 Copies for information and necessary action.

The Deputy Conservator of forest
Thane Forest Division,
Thane.

Sub :- Diversion of 12.0225 Ha. Forest land for construction & laying of 220 KV LILO on M/C Transmission line on 220 KV Padghe-Wada & Kolshet-Wada Tr.line for 400 KV Kudus S/Stn.

Ref: - Integrated Regional Office Nagpur letter no. FC-II /MH-201/2022- NGP/10732 dated 8/12/2022.

Sr. No.	Description / Points	Compliance
i	The details report on violation of FCA, 1980 including nature and extent of violation, name of official persons responsible for violation and action taken thereof needs to be submitted.	Violation report attached separately.
ii	Since Eco- Sensitive Zone of Tansa Wildlife Sanctuary has not been notified, ESZ is deemed to be 10 km., accordingly, the state government shall obtain and submit comments from the PCCF (Wildlife), Maharashtra on any adverse impact of the proposal on the resident wildlife and mitigation measure thereof.	Say from PCCF Wildlife Nagpur will be submitted shortly.
iii	Alternative alignment has been examine only based of minimum forest area required, no other ecological parameters have been used. Accordingly, detail of Alternative examined before finalization of proposed one along with the details of corresponding attributes of Alternative examined viz. forest area involved, no of trees involved, tree density, and distance from the PAs etc. vis-à-vis feasibility of project and soft copies of KML needs to be submitted by the state Government.	The drawing for your reference showing alternative examined attached separately.
iv	State government has mentioned in their covering letter that "Concerned DCF shall ensure that proposed land and CA land is a forest land as per relevant documents". The exact legal status of the area identified for CA and proposed for diversion need to be certified by the state Government.	Pertaining to forest

v	Examined of Google imagery of proposed area revealed that by shifting alignment further north down to the existing highway around the hillock, a considerable forest area can be avoided. Further alignment is passing close to the Tansa and Dumdya River, however, same can be proposed diagonally through the agriculture field, which eventually will also reduce the length of the alignment. The State Government may revisit the alignment and detail report on possibility of shifting of the alignment as above need to be submitted.	<p>A) Madoshi village and habitants along with road in the forest (P.F.) restrict us to move towards northern side of hillock. Also forest and habitants will encounter. Further the crossing of 400 KV Padghe- Boisar Transmission line is technically not feasible as it has to be crossed over river bed if alignment been shifted as suggested and as per point no.V.</p> <p>B) i) It has also been asked to propose the alignment diagonally through agriculture filed, while finalizing the route we have already examined the possibility. However it involves P.F. and the scattered habitants and plots which again restrict us .</p> <p>ii) Moreover technically this alignment as asked is not feasible as this line is supposed to enter the premises of 400 KV Kudus substation through southern side and close to Tansa river.</p> <p>Hence considering all above parameters it is not feasible to shift the route other than proposed in the proposal.</p> <p>The drawing for your reference attached separately.</p>
vi	It has been found through the satellite imaginary that most of the forest area and Reserve Forest in particular is under encroachment and activities like agriculture, pathways and construction of permanent structure are visible. The details note on the current land use of Reserve forest and action if any taken for removal of encroachment need to be submitted.	Pertaining to forest.
Vii	Forest patch wise area calculation statement, indicating the length and breadth, forest density has not been submitted. The same needs to be submitted along with detail of forest patches which are being bifurcated from the transmission line.	Area statement attached separately.
viii	Details of area available for plantation of dwarf species, preferably medicinal in clearance available under the conductor and scheme of plantation has not been provided in the proposal, same need to be submitted.	Undertaking attached separately.

As above compliances are submitted to your office in four copies for needful please.

Encl: As above.

Violation Note

DETAILS & NECESSITY OF PROJECT ALONGWITH BENEFITS.

MSETCL, Government of Maharashtra undertaking company has proposed to take up the work of construction of 220 KV Padghe-Wada & Kolshet-Wada transmission line Thane District, Maharashtra State vide MBR NO. 112/26 DT. 17.11.2016. The proposal requires diversion of 12.0225 Ha forest area in Eaksal, Chinchavali, Kunde & Dighashi Village under Section-2 of the forest (Conservation) Act 1980. Therefore for laying of transmission line forest clearance from Ministry of Environment, Forest & Climate Change (GOI) is required.

BENEFITS OF PROJECT .

1. Strong & reliable source of 400 KV source will be made available for Mumbai & Suburban areas.
2. Strengthening of Power supply to commercial capital of India by providing continuous and reliable power supply.
3. It helps to meet the concept of zero load shedding of Maharashtra.
4. 24X 7 availability of Power Supply/ Electricity.
5. Provision of continuous power supply to all industries and farmers hence enhancing the GDP of Maharashtra.
6. It provides stability to voltage of Mumbai regions.

While doing execution the violation has been done at two locations i.e. loc. no. 37 having area 0.015876 Ha. Survey No. 54 Part, Village- Kunde & loc. no. 38 having area 0.0256 Ha. Survey No. 211/4A, Village- Dighashi, the total hectore of violation is 0.041476 Ha. The violation was done in the year 2018-2019.

As vegetation was there on the fields/locations & there were no trees involved in the area. The violation has been done unknowingly & not with any other intention or purpose. In this matter we have taken action against Mr. T.P. Warule Addl. Executive Engineer, Lines Project sub-division Kalyan and transferred him to HVDC Padghe substation.

In this regards we agree for any penal action against violation by forest authority.
