The State Government is requested to choose an alternative area instead of the one falling within VDF and MDF.	Kudog 21 patch is replaced by Kudog 20b. Accordingly KML file and CA Map are corrected and uploaded on Web Portal.
iii.	The Sol Toposheet and digital map of the CA area, as mentioned in para 13 of Part II, have not been uploaded. The State Government is requested to upload the Sol Toposheet and digital map of the CA area at para 13 in Part II of the proposal.	Toposheet and digital Map uploaded on Web Portal.

In forest area a ROW of only 30 m has been proposed in most of length. The ROW of 45 is proposed in private land areas only in 426 m length due to following constraints: In km 2.260 to 2.444 there is deep cutting of 8-12 m and in km 4.815 to 5.057 the Service roads on either side (2x 2 Lane are also to be accommodated along with 2x 2 Lane main highway.

	being close to interchange. The project road is falling plain and rolling terrain. The recommended ROW for 4- Lane Highways is as below: - 45m as per IRC:73-2023 Geomatic Design Standards for Non-Urban Road- Para 4.1, Table 4.1 (copy attached as Annexure – 2A) - 60 as per IRC:SP-84-2019, Mannual for four laning highways – Para 2.3 (copy attached as Annexure – 2B)
vi.	In the SIR of DFO, the entire area is mentioned to be in the reserve forest, and in para 2 of Part II. However, in the land schedule, 0.3877 ha area is marked as civil soyam land. The State Government is requested to clarify this discrepancy.
vii.	The proposed road is affecting 6574 trees. The State Government is requested to submit details of the alternatives examined and the reasons for their rejection.
viii.	The State Government is requested to clarify the necessity of cutting all the 6574 trees in the Right of Way (Row considering the area is almost flat. Additionally, re-examine the situation and submit details of the trees that are actually required to be felled.
