With reference to the above subject, the user agency i.e. Executive Engineer, National Highway Division, Shimoga has submitted a proposal (No.FP/KA/ROAD/156224/2022) for the release of 25.763 Ha of forest land for the "Construction of 2L+PS Road from km 55.60 to km 90.70 Mavinakoppa of NH 766 C with Major Bridges across Sharavathi Back Water". After the site inspection by unit officers, the proposal was submitted for approval and uploaded all the necessary information in Parivesh portal.

However, The MoEF & CC, Integrated Regional Office, Bangalore raised EDS, vide ref(1) seeking additional information regarding corrections to be made in Part-I of Parivesh Web-Portal by the User Agency and regarding the corrections pertaining to the proposed Compensatory Afforestation land in degraded forest area.

Therefore, Deputy Conservator of Forests, Sagara Division has raised EDS to the User Agency in Ref(2) Dated: 30.12.2023 seeking necessary information.

In between, one Sri Girish Achar, Brahmeshwara, Punaje Village, Hosanagara vide Ref(3) and Sri Veerendra Patil, Advocate, Bengaluru vide Ref(4) submitted a petition stating that from 1998 to 2018 the area in Sy No 5 of Ganganakoppa Village was mentioned as 'Aranya' in column no. 9 of RTC. But later in 2018 the Tahshildhar of Hosanagara Taluk has changed the status of said land from 'Aranya' to 'Sarkari Muphattu' vide MRH No.10/2017-18 Dt: 25.06.2018.

In view of this and as there required some change in the proposed area, DCF Sagar raised EDS to User Agency vide Ref(2) Dt: 24.05.2024. In return, the User Agency re-surveyed the proposed diversion area and made necessary corrections in the alignment of the proposed road and revised the diversion area from 18.844 Ha to 25.763 Ha the details along with necessary documents were uploaded in the Part-I of Parivesh Portal and submitted the detailed report to DCF Sagar in Ref(6).

Total 11751 trees are present in the proposed diversion area. Out of which 2346 trees are raised by Mysore Paper Mills. And also out 11751 trees 6456 trees have girth less than 30 CM. The proposed diversion area involves very less cutting of hills and the user agency proposed to construct retaining walls and breast walls wherever necessary to prevent any future soil erosion and landslides in the project area.

The NH-766C connects the Coastal region with Malenadu and Northern Karnataka. At present the distance between Mavinakoppa to Adugodi is 30.5 km as it circum-navigates around Sharavathi backwater and it takes 1 hour of travel time due to bad condition of existing road. The proposed highway will reduce the travel distance of 30.5 km to 13.83 km from Mavinakoppa to Adugodi and reduces the travel time from 1 hour to just 15 minutes. Hence the travel time is minimal for the local people and thousands of vehicles which travel in this road utilize less fuel than earlier. And this project also provides the essential connectivity to the rural people of Hosanagara Taluk and have positive economic impact. So the Proposal No. FP/KA/ROAD/156224/2022 submitted by the user agency "Executive Engineer, National Highway Division, Shivamogga" can be considered.

  
Deputy Conservator of Forest  
Sagar Division, Sagar

## **RECOMMENDATION LETTER**
