मुख्य वन संरक्षक/नोडल अधिकारी,
वन (संरक्षण) अधिनियम, 1980
उत्तर प्रदेश, लखनऊ।

विषय:-

Proposed protected forest land diversion for entry/exit to petrol pump of Essar Oil Limited in SH22A at km 74 chainage 73.800 on right shoulder in Khasra no. 141/A in village Lahosara Bisawan of Aligarh District having extent 0.075028 ha. with felling of 10 nos of trees-reg.

संदर्भ:-

भारत सरकार, वन, पर्यावरण एवं जलवायु परिवर्तन मंत्रालय, क्षेत्रीय कार्यालय (मध्य) लखनऊ का पत्रांक 8B/UP/06/19/2018/FC/194 dated 16.03.2018

महोदय,

उपरोक्त विषयक प्रस्ताव में भारत सरकार, वन, पर्यावरण एवं जलवायु परिवर्तन मंत्रालय के संदर्भित पत्र द्वारा लगायी गयी आपत्तियों का बिन्दुवार निराकरण कर आख्या प्रभागीय निदेशक, सामाजिक वानिकी प्रभाग, अलीगढ़ ने पत्र संख्या 4024/Others/25541/2017 दिनांक 21.06.2018 द्वारा उपलब्ध करायी गयी है। अतः प्रभागीय निदेशक, सामाजिक वानिकी प्रभाग, अलीगढ़ द्वारा प्रेषित आख्या के आधार पर निम्नप्रकार आपत्तियों का निराकरण कर प्रस्ताव तीन प्रतियों में संलग्न कर प्रेषित है।

S.No.	Observation	REPLY
1	As per GIS DSS analysis. of kml file of proposed forest land for diversion:	
	(a) Permanent structures are visible when kml file is overlaid on Google Earth image.	Permanent structures are present in the non forest land which were present are part of a plot basically a room and boundary of the plot has been made. Site had been visited on 23.05.2018 and it was found that there is no violation has been made under Forest (Conservation) Act, 1980. Protected forest land proposed for diversion has been left untouched.
	(b) There exists a shift also.	Necessary correction has been made in the kml file.
2	The exception certificate issued by the concerned authority under FRA 2006 is silent about rights of pre agricultural forest dwelling communities.	Rights of pre agricultural forest dwelling communities has been properly mentioned in the ammended enclosed FRA 2006 certificate
3	Original layout plan has not been submitted with the proposal.	Original layout plan has been enclosed in the proposal.
4	Area calculation in land schedule submitted is not as per dimensions shown in Xerox copy of layout plan submitted Dimension of width taken for calculation needs to be confirmed. Dimensions provided in PWD NOC should be the basis of calculation.	There was little mistyping error in the Xerox copy of layout plan. Original layout plan and PWD NOC has been enclosed here with. Hence area proposed for diversion is correct according to the enclosed layout plan.

5	(a) As per GIS DSS analysis of proposed Compensatory Afforestation (CA) site is full of vegetation which is not suitable for plantation.	On Inspection, it was found that there are small patches present in the forest land proposed for Compensatory Afforestation where plantation will be made. Since there is no norms for better protection of 100 trees and better availability of irrigation for plantation of plants seperately. If separate boring is done which is as per Schedule of Rates Aligarh it will cost a huge amount of 26250/- per boring which is also not feasible. It is also not feasible to appoint a seperate watcher for protection of just 100 trees. Hence, the plantation of 100 trees will be made in lieu of other plantations in small vacant patches.
	(b) Site suitability shall be rechecked and suitability certificate shall be based on DFO's field visit.	Site suitability has been relooked as found to be correct as per above reason.
6	NPV calculation shall be based on correct area.	There is no correction in the proposed forest area as already shown under Objection no. 4 compliance, Hence NPV calculation has been left untouched.
7	Site suitability certificate for proposed CA and part V have not been uploaded.	Site suitability certificate for proposed CA and part V have been uploaded in Part II.

संलग्नक— उपरोक्तानुसार।

भवदीय,

(वी० के० मिश्रा)
