1	In Part II of the proposal the density of the forest has been indicated as 0.3 but tree enumeration list is not attached. In the proposal it has been suggested that felling of any tree is not required.	In Part II of the proposal the density of the forest has been indicated as 0.3. Payment of NPV has been made for Rs. 7,93,26,720 as advance as per MoEF circular dated 01.04.2015 considering density of 0.3. Tree enumeration has been completed and there are 4418 trees of different species. Felling of these trees will be required. Three copies of the enumeration list has been submitted to the Range Officer (Burmu Range) for further necessary action vide letter no. 106 dated 17.10.2017. Copy attached as Annexure - I.	In part II of the proposal the density of the forest has been indicated as 0.3. Joint tree enumeration has been completed and there are 418 trees of different species. Copy attached as Annexure-I.
2	Two site inspection report of DFO is attached with the proposal. In one of the proposal it is evident that the site does not have pillars according to the plan and there is high possibility that it may overlap with the already diverted land.	No such issue has been raised by DFO in latest Site Inspection report. The copy of Site inspection report made by DFO on 18.07.16 is enclosed as annexure - II.	At the time of first inspection, pillars were not built. The copy of final site inspection report is enclosed as annexure-II
3	Plan submitted for diversion does not indicate already diverted forest land	Details of Leasehold Area : Total Area Under Lease: 717.17 Ha Forest Land- 514.64 Ha, Non-Forest Land- 202.53 Ha Details of Forest Land: 514.64 Ha	Already diverted forest land vide letter no. 8-79/90-FC & 8-79/1990-FC (Vol. D for total land area 101.41 & 28.95 respectively, i.e. 130.36 Acres which is indicated in land user plan. Fresh proposal for 126.72 ha has been applied by user agency. On line acknowledgement no. FP/JH/MIN/8374/2014 Details given by user agency.

<p>4 In Part I of the proposal the details of prospecting activity has been mentioned in point M5.1, however in point M6 it is mentioned that permission under FC Act has not been taken for Prospecting activities.</p>	<p>In M5.1 number of boreholes in forest land and non forest land has been furnished as under:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="5" style="text-align: center;">Bore holes drilled for prospecting</th> </tr> <tr> <th style="text-align: center;">S.no</th><th style="text-align: center;">No. of Bore holes (in forest land)</th><th style="text-align: center;">Diameters(in inch.) forest land</th><th style="text-align: center;">No. of Bore holes (in non-forest land)</th><th style="text-align: center;">Diameters(in inch.) non-forest land</th></tr> </thead> <tbody> <tr> <td style="text-align: center;">1</td><td style="text-align: center;">13</td><td style="text-align: center;">4</td><td style="text-align: center;">3</td><td style="text-align: center;">4</td></tr> </tbody> </table>	Bore holes drilled for prospecting					S.no	No. of Bore holes (in forest land)	Diameters(in inch.) forest land	No. of Bore holes (in non-forest land)	Diameters(in inch.) non-forest land	1	13	4	3	4

		The mined out area is being backfilled and reclaimed in such a manner to stabilize the dumps by proper benching, grading hence maintaining the overall angle of slope less than 28 degree. Project is carrying out mining /reclamation work as per EMP/mining plan. Land Broken = 353 ha Land used in infrastructure = 179.82 Ha , Technically Reclaimed area = 198 Ha (approximately) Biologically reclaimed area = 185.88 Ha, No of plantation on OB dumps ~ 4,16,600
