5. The user agency submitted that the village Dharjol is a cluster of various inhabitation situated 0.500, 1.000, 1.500 Km far from each other. It is clear by the KML file that an another link road is existing from Geo-reference 31°43'27.87/76°44'39.06 which cover only one inhabitation and it leads from on carrier of village Dharjol to down word of south direction up in the proposed road of geo-reference 31°43'2.23/76°44'49.97 but this road does not attract the FCA provision because this path/road used to be very ancient, which was used for grazing cattle/mule path and for drinking water. This road is not a part of proposed road in any way.

This is for favor of kind information & further necessary action please.
