With reference to the letters cited, I wish to inform the following details.

In Government of India letter 6th cited, query has been raised for rectification for processing the forest clearance proposal.

Details on query raised and rectification carried out are tabulated below.

Sl. No.	Query raised	Report on rectification done and remarks thereon if any
1	The kml file uploaded in the online application against the subject	The kml file of the proposed forest diversion area and scanned copy of

	proposal appears to be wrong and same needs to be rectified.	geo-referenced map along with GPS reading of the proposed forest land proposed for diversion have been uploaded by the user agency.
2	It appears that, DGPS readings of the non-forest land identified for compensatory afforestation is showing inside the reserved forests, which needs to be clarified.	The user agency has identified alternate non-forest area in S.F. No. 499/3 in Thenkarai village of Perur taluk in Coimbatore District and an area of 7.28 ha (double the extent of proposed forest diversion area) has been identified as CA land. Kml file has been uploaded. GPS reading of the site along with Adangal Register extract of the survey field, FMB sketch marking the identified non-forest CA land, DGPS reading of the area and copy of area marked in the Survey of India topo sheet have been uploaded in the web portal.
3	The proposed area is showing equally on both sides of the road. Whether the proposal is for expansion of the existing one on both sides of the road (or) it is newly proposed on another side is not clear. If it is a new proposal then it may be proposed for expansion on the either side, If not expansion of the existing one, but is a proposal for new one, then proper justification needs to be given, since it is not a site specific activity.	The Commissioner, Coimbatore Corporation in letter No. 11324/2015/MH5, dated 07.05.2018 addressed to the District Forest Officer, Coimbatore Division has justified the forest diversion in both sides of the National Highways road for burial ground expansion and uploaded this letter in web portal as revised justification report for the project. Proposal for diversion of forest land for non-forestry activity has been recommended.

4	The status of online proposal in the web portal shall be rectified and forwarded to the Regional Office, Chennai.	The status of the online proposal has been changed by the MoEFCC-NIC office, New Delhi and the Government of India-Regional Office has already uploaded the query letter in the web portal.
---	---	---

For the revised alternate CA land the District Forest Officer, Coimbatore Division has uploaded revised CA scheme and site suitability certificate in the CA scheme section in Part-II of Form-A by the District Forest Officer.

I am enclosing herewith the revised documents pertaining to alternate CA land and revised CA scheme along with site suitability certificate furnished by the District Forest Officer.

Defects pointed out by the Government of India have been rectified.

I wish to inform that, reply to the EDS raised by the Government of India has to be furnished through web portal, so that the proposal can be processed through online.

Hence the rectification report may please be forwarded to Government of India through on-line.

Encl : As stated above.

Yours faithfully

Channayya
