

EDS dated: 02.02.2016

8960/2014

132KV D/C

Transmission Line from Tangnu-Romai HEP to 66/132/220KV

P.S. Sunda(Chirgaon)

Following shortcomings are still not received in the proposal which may be attended by the State Govt.

1. In a reply dated 20.01.2016, uploaded online on 21.01.2016, the Digital map of the area proposed for diversion is enclosed with the hard copy of the reply but not uploaded online which may be done.
2. In the Cost Benefit analysis submitted with the reply information in column 1 of both performa VI b and VI C needs to be quantified in monetary terms. In performa VI C column 2, the figure of environmental losses mentioned in performa VI b appears to have been filled which is not correct and may be reviewed. Cost over Benefit ratio may also be worked out.
3. The Digital Map of CA is submitted on google earth map which is not proper. May submit proper digital map of CA site showing geo coordinates at all corner points in polygon shape.
4. In District Profile given in Part II the data given about CA stipulated is not commensurate with the forest land diverted which may be reviewed.
5. Approximate distance of the site proposed for diversion is not given in the relevant column of Part II both online and offline.
6. Keeping in view the tree species present in the area proposed for diversion of State Govt may view the eco class which is mentioned as class vi and may also review and NPV calculation if required.

Enclst. C-28-b-1599/FCA(Online)/Rohru/ 11825 Dt 8/2/16

Copy is forwarded to DFO Rohru for information & necessary action. He please attend the above observations at the earliest possible.
