2. The following shortcomings have been noticed in the proposal, which may be completed:

- 1 In response to Point No. 1, an extracted and unsigned copy of the Administrative Approval has been uploaded, whereas a complete copy of the approval is required to be uploaded. In case the approved letter/booklet contains a large number of pages, at least the title page, first page, along with the relevant page duly authenticated by the competent authority, may be uploaded.
- 2 GoI has sought submission of mitigation measures to prevent rolling down towards the downhill side. In response, R/Wall and B/Wall have been proposed to be created, however, no detailed engineering mitigation plan has been provided.
- 3 As per the KML file, the proposed CA area is marked as 4.43 ha instead of 3.9 ha. Further, the digital map of the CA area has not been uploaded, and the toposheet uploaded is unsigned. Therefore, the KML file may be revised as per the actual area, and the digital map of the proposed CA area duly signed by the DFO may be uploaded accordingly.

Yours faithfully,
