

Hydro Electric Project

Following shortcomings still remain in the online reply dated 29.02.2016 of the State Govt to the EDS dated 28.08.2015 of this office which may be attended by the State Govt.

1. The KML file of the area proposed for diversion still not uploaded at Part I C a which may be done as it is now possible to upload it again.
2. Copy of Sol toposheet showing location of area proposed for diversion which is provided with the hard copy of the reply, may be uploaded at Part I C iii.
3. The digital map of the area proposed for diversion is still not showing all the components as per detail provided in Part I B 2.4. The area is shown in two patches without providing names of the components as also their respective geo coordinates. In addition the component wise breakup given at B 2.4 mentions road, bridge, abutment and river training but the shape of two patches shown in digital map does not appear to be of linear shape.
4. Even if the work is already carried out in violation, employment data may be shown.
5. The report on violation provided now mentions filing of FIR with police under IFA 1927 in the year 2013 but does not give any information about the progress made so far in this case. It is also mentioned that a case of encroachment of forest land has also been initiated in the Court of Tehsildar. However, it is not clear as to why the same was not initiated in the court of Collector cum DFO. Moreover, it may also be clarified whether the eviction proceedings are now relevant in view of the State Govt seeking diversion of the land in question under FCA 1980 through this proposal.
6. CA scheme still not found uploaded on web portal. May indicate in which part/column it has been uploaded.
7. Digital map of area proposed for CA provided with the hard copy of the reply does not match with the digital map available online at Part II column 13 iii. May recheck and upload the correct digital map of CA.
8. The KML file of CA now reported to have been uploaded contains the area proposed for diversion and not that proposed for CA. The KML file of area proposed for CA available in the CD shows only 4 separate points with geo coordinates without giving any shape file. May provide/upload GIS software generated geo referenced digital map of the area proposed for CA providing geo coordinates at all corners in shape file.

Endst. No. 7900 Dated Rampur, the 22/3/16

Copy is forwarded to DFO Rampur for information and further necessary action. He is requested to attend the above online observations raised by the Nodal Officer.

Chief Conservator of Forests (T)
Rampur Bushahr, H.P.
