

**Following shortcomings still remain.**

1. As per KML file of proposed road, no existing road is shown to which proposed road would be connected. also habitation seems to be very less as per KML file.
2. It is seen that the kml file for the area proposed for diversion is not correct. User agency may upload correct file so that the proposal can be examined.
3. Instead of justification for locating the project in forest land at Para-D in part I, only benefit of road is mentioned.
4. Village Level Committee proceeding is provided in the FRA document at column K in part I but name of villages are not mentioned in village wise break up in online Part-I The user agency may do necessary correction and provide VLC proceeding for each village separately with separate attendance sheet through which the proposed road is passing.
5. Over writing made in DLC and VLC proceeding is found blank of village. please submit the revise VLC proceeding and DLC proceedings.
6. Village wise breakup is not filled properly. details of area for each village should be mention through which the proposed road is passing.
7. User agency may upload/provide present status of the villages to be benefited in the uploaded KML file in Form A, Part I.

**....Nodal office, Dehradun....**
