Agenda item 26.6 Uttar Pradesh

Online Proposal No: FP/UP/Road/22374/2017

8B/UP/09/06/12/2018/FC: Diversion of Protected Forest Land for Rehabilitation and Up-gradation to 4-lane with paved shoulders configuration from Bhadwas to Kalyanpur section (Km 186.000 to Km 229.000)Package-II section of National Highway-91 in Etah District in the State of Uttar Pradesh

The proposal was submitted vide letter no. P-15/14-2-2018-800(12)/2018 dated 6th February 2018 from Special Secretary, Department of Forest, Government of UP. The proposal along with hardcopy was returned to State Government vide letter no. 8B/UP/06/12/2018/FC/186 dated 1st March 2018 due to shortcomings and placed under EDS category. The reply of EDS is still awaited. The essential details sought are mentioned below:

- 1) Three proposals FP/UP/ROAD/24596/2017, FP/UP/ROAD/23288/2016 and FP/UP/ROAD/22374/2016 appears to be part of widening of National Highway 91 and total extent of diversion is more than 100 ha which requires site inspection from Regional Office, MoEF&CC as per guidelines of FCA 1980.
- 2) There exists a rounding off error in totalling extent of village wise forest area at B 2.3 in part I.
- 3) As per GIS DSS analysis of proposed forest land for diversion, following issues need rectification:
 - a) The area of proposed forest diversion is 56.52 ha whereas the proposal is submitted for 65.495 ha. Either kml files are erroneous or calculation of area is incorrect.
 - b) Overlay of kml files of proposed forest land diversion on Google Earth image shows lateral shift.
- 4) Benefit Cost analysis of the proposal is not as per latest guidelines of MoEF&CC. This needs revision.
- 5) In land schedule prepared for forest land calculation, one additional column for balance available width of PF after deducting for proposed width for diversion shall be provided.
- 6) As per GIS DSS analysis of proposed compensatory afforestation, following issues need rectification:
 - a) Uploaded kml files for CA at 13(i)-3&4 are not accessible and showing error.
 - b) The extent of CA proposed suitable for plantation is 128 ha only. One 4 ha patch is a water body. An additional patch of extent more than 3 ha is needed to meet the shortfall.
- 7) Site Inspection Report of DFO mentions translocation of 201 number of Ficus trees.
 - a) A detailed estimate along with suitable location for translocation shall be submitted by the concerned division.
 - b) Undertaking from user agency is needed to fund the proposal.
 - c) State Government shall specifically recommend this additional proposal.

Decision of REC -

- Site inspection report of Conservator of Forests (CZ) was discussed in presence of officials of user agency. Following issues having implications on proposal were observed:
 1. Compliance of conditions imposed by MoEF&CC vide final approval FNo 8-16/2012-FC dated 9th May 2013 for NH 91, was not done. REC expressed its displeasure over suppression of this vital information in part I of the proposal by the user agency. Compliance of condition imposed vide above mentioned letter is to be ensured.
 2. Calculation of proposed forest land diversion (Land Schedule) shall incorporate extent of fresh diversion and re-diversions (like of retail outlet, OFC cables etc.) clearly in the proposal. Essential documents related to re-diversion shall be furnished. Extent of fresh diversion is to be finalised duly deducting re-diversion area.
 3. Overlap in enumeration of trees as per approval of 2013 and present proposal shall be removed duly accounting for the details of removed trees during intervening period.
 4. User Agency will furnish details of administrative approval of the proposal.
