

No.Ft.48-4040 /2019 (FCA)

28 MAY 2020

EDS on Proposal No.FP/HP/DIS/43462/2019

Diversion of 0.8514 ha of forest land in favour of Directorate Medical Education & Research, himchal Pradesh Kusumpti Shimla-9, for the construction of Hospital Block of Dr. YSPGMC, Nahani Distt Sirmour, HP, within the jurisdiction of Nahani Forest Division, Distt Sirmour, HP.

The following shortcomings are to be completed.

1. Although a certificate (providing detail of villages benefitted) duly authenticated by competent revenue authority has been placed in the proposal folder but in online part-I, the requisite certificate uploaded has not been signed by the competent revenue authority. The requisite certificate duly signed by the competent authority is required to be uploaded in online part-I.
2. As per enumeration lists placed at P.Nos 75-76 of the proposal folder 58 trees of different species are standing over the forest land proposed for diversion whereas against column No.4(ii), 73 trees have been mentioned. Thus it is not clear that how many trees are involved in the present proposal. All the trees including saplings are required to be placed in the proposal folder and mentioned against column No.4(ii).
3. From the perusal of CA scheme placed in the proposal folder, CA has been proposed over degraded forest land whereas in the site suitability certificate placed at P.No.85 of the proposal folder, it has been mentioned that non forest land selected for compensatory afforestation is in a compact block and contiguous to forest area. This is required to be clarified by DFO concerned whether CA has been proposed over forest land or non forest land.
