Madam,

With reference to the subject and reference and I am directed to inform that, upon examination of the proposal submitted by the State Government, it is noted that the proposed area for CA purpose is frequented by wild animals like Elephant, Leopard etc. If the area is frequented by Elephants, raising any type of plantation will be difficult and the plantation may fail in long run. **Hence, it is opined that, if the identified non forest area is contiguous to the RF area and the non-forest area may be accepted and however, the plantation may be carried out in the nearby degraded forest area. Comments on the above observations may be submitted.**

Further, it is to inform that, the CA scheme with financial outlay of Rs. Rs.1,47,49,596/- for raising plantation and its maintenance over an extent of **3.04 ha** has been submitted along with the proposal. In view of the above, it is reiterated that in few earlier cases, this office informed to the State Government that, cost of CA scheme submitted by few Forest Division was exorbitant rate per ha. In the instant case also, the DFO proposed CA scheme @ 48.5 lakhs per ha which is appears

to be at higher side. Hence, it is requested to re-examine the CA scheme and submit the revised CA scheme accordingly.

Yours faithfully,
